Asian Dragons Take a Bite From the U.S. Trade Deficit PRINCE UR THE PRINCE was after him that had been add to the

By Patrick L. Smith International Herald Tribune

TOKYO - One year after a ballooning U.S. trade deficit helped force a world financial crisis, the newly industrialized countries of sia are starting to assume an es-

al commerce back into balance. with currencies rising against the dollar, economies growing rapidly and consumption patterns changing, South Korea, Taiwan, Hong Kong and Singapore have goined enhanced ability to absorb more imports from the United States and redirect their exports to Japan and other nations.

Both trends are likely to contin-Lies Minuselle : Same

ne for at least the next several years, U.S. and Asian analysis say, making the four economies a key factor in the reduction of the U.S. deficit in its trade across the Pacif-

A snapshot of these economies adday would not tell the story." Said Daniel Gressel, senior Asia economist at GT Management Ltd. in San Francisco. "As the NIC's join the group of advanced nations

Kiosk

Johnson Vows

To Run Again

won't be any arguing how essential they are to maintaining the U.S. trade account in balance."

The pattern that is emerging, economists say, is one of "triangn-lar trade," in which the United States is dramatically increasing its exports to the four nations, while Japanese imports from them are increasing at a similarly high rate. All four of the little dragons, as

they are commonly known, are increasing their imports from the United States at annual rates ranging from 41 percent in Singapore to 54 percent in South Korea. Their exports to Japan are increasing at rates close to 50 percent. Until recently, the value of U.S.

exports to each of the NIC's was small enough to be ignored: Even after a 39 percent increase last year, for instance, U.S. exports to Hong Kong were \$4.1 billion. In 1987, exports to Singapore stood at \$4.8

starting to change. U.S. exports to Hong Kong are expected to reach almost \$5 billion. Exports to Singa-

to South Korea will approach \$9 billion. As a result, the U.S. trade deficit with the NIC's is expected to drop almost 20 percent this year,

Trade analysis and economists in the region suggest that, in effect, U.S. manufacturers are exporting to Japan through the other four nations, since they are proving more responsive than Japan to ad-justments in exchange rates and fluctuating growth patterns.

The increased importance of the four dragons in maintaining global economic stability was first noted officially at the summit of the major industrialized nations held in Toronto in June. Apart from purely economic factors, the emerging trade pattern reflects efforts begun last year by South Korea and Taiwan to avoid the trade friction that has long plagued Japan. They have acted to stimulate domestic consumption earlier in their own development than Japan did.

Saudi Warning Hits Oil Market; **Analysts Bearish On Price Trend**

NEW YORK - Oil prices stead-

ied late Tuesday after falling in Eu-rope following Saudi Arabia's warnng to OPEC partners that they must obey the cartel's production rules or watch the market slide. But analysts warned that the out-

look for prices remained negative. "We're still in a bear market." said Jim Fiedler, a trader with E.D.&F. Man International Futures Inc. "The market was expecting a rally of up to the \$13.70 level and they haven't been able to get it."

The November contract for West Texas Intermediate, the beachmark U.S. crude, rose 1 cent to \$13.07 a barrel on the New York Mercantile Exchange

In London earlier, North Sea Brent, the most widely traded crude oil, slipped to \$11.60 a barrel for prompt delivery, from \$11.65 on Monday. Dubai grade for No-vember lifting dropped to \$9.60 a barrel from \$9.65.

"The main thing goes back to the concerns about the Saudi overproduction," Mr. Fiedler said. (UPI, Reuters)

■ Sandis Take Tough Stand Youssef M. Ibrahim of the New

York Times reported from Paris: In the toughest statement about oil policy it has issued in years. Saudi Arabia challenged Iran, Iraq and other OPEC producers to either restrain their ronaway oil production or face financial ruin.

The statement served notice that Saudi Arabia would no longer allow other oil producers to increase their oil output with impunity, in the expectation that they can en-croach on the Saudi share of the world market. The Saudis said they would now join others in boosting oil output, a move that guarantees a further fall in oil prices.

"Saudi Arabia will not accept that any members of OPEC increase their oil production share at its own expense," said the statement, "nor will it allow other oil producers to pin its oil production down where it is now while they increase their own. This swing producer role is one we do not wish to

The statement was issued Monday after a late session of the Saudi Council of Ministers, chaired by

King Fahd. Although many Gulf region crudes are already trading at close to, or below \$10 a barrel, Saudi officials said they will not be re-

new policy may very well push oil prices below 1986 levels.

the world's preeminent institutional investors, with a global portfolio estimated to be about \$80 billion. strained by the clear risk that their The Gulf state began to amass a major holding in BP last November, when the British government's sale of its remaining stake in the company flopped in a public offering soon after the October stock

> market collapse. Without the intervention by Kuwait at that time, the British gov-ernment's £7.2 billion issue would have fallen flat

> Kuwait has insisted all along that its investment in BP is purely passive, contending that it does not aim to influence corporate policy. After the government probe of its BP holding began, it offered to restrict its voting rights to 14.9 percent and not to raise its stake beyond 21.6 percent, but those pledges were rejected by Trade Secretary Lord Young of Britain.

> Details of a report by Britain's Mergers and Monopolies Commission, upon which the trade department based its decision, were released Tuesday. The report said Kuwait could seek to curtail BP's exploration and development spending. That was one of the concerns voiced by BP in recent ment to reduce Kuwait's stake. The report also suggested that a future Kuwaiti government might be less friendly toward Britain than the

"We expect Kuwait in the long term to exercise influence over these policies and to restrict BF from acting independently and

competitively," the report said. Under the ruling Tuesday, Britain will seek to limit Kuwait's voting rights to 9.9 percent of BP's shares until the divestment is com-

pleted. BP, which warmly welcomed the government decision Tuesday, said several times in recent months that it would like individual stakes in the company limited to 10 percent

Among BP's chief concerns about the large stake held by Kuwait is the possibility that it would convey an impression that the giant energy group is controlled by a leading oil producer. BP also feared that Kuwait Petroleum Corp., the Gulf state's big exploring and refining group, might try to pressure BP into refining and marketing joint-ventures in Europe as part of its drive to gain increase market

The Kuwait Investment Office.

Behind Bush, a Strategy of Control and a Man Named Baker telephoned to the Republican Na-tional Committee in Washington,

Mr. Bush listens to his longtime friend, adviser and campaign director, James A. Baker 3d.

By David Hoffman

Washington Post Service WASHINGTON - Fifty minutes into the first presidential de-bate, George Bush's campaign chairman, James A. Baker 3d, ordered one of his deputies to place a telephone call with an argent message for the debate moderator, Jim Lehrer.

The message was this: You promised the debate would be divided evenly between domestic and foreign policy. When do we get to

Within 10 minutes, the 90-minate debate shifted onto the terrain the Republicans believed would be friendlier for their nominee, In fact, Mr. Lehrer was about to

shift to foreign policy questions anyhow. But the effort to influence Mr. Lehrer illustrates the central element of the Bush campaign's at the Sept. 25 debate. Minutes strategy against Governor Michael after it ended, Mr. Baker had coor-S. Ruins on the Golan Heights: Where Destinies of Jew and Arab Collide

By Alan Cowell

New York Times Service QUNEITRA, Syria - Lieutenant Khaled Natur, a Syrian Army officer, lowered his Sovietmade binoculars and gestured beyond his country's borders.

We do not have a name for the other side," he said with a hint of wry humor about this region's taboos and inexplicabilities. "If they are a country or a people, we don't know it." Even without the field glasses, from this place

where the destinies of Jew and Arab collide, a sign is visible just beyond the last United Na-tions checkpoint: "Welcome to Israel."

This is a broken city, on the border between Syria and the Israeli-occupied part of the Golan

Depending on the perspective, the Israeli billpoard is either a statement of fact, since Israel

annexed parts of the heights in 1981, or a denial of history, because Syria wants it back. Either way, Quneitra stands out. For Syria it is a symbol of relentless Israeli expansion and of an affront that must one day be righted.

"The main point for the Syrians," a West European diplomat in Damascus said, "is that they want the Golan back. So, they'll play very tough in any Middle East negotiations. And as long as the Golan is occupied, it guarantees the

Syrians a role in the whole issue." Syria lost much of the strategic heights to Israel in the wars of 1967 and 1973, and Quneitra, only 40 miles (64 kilometers) from Damascus, remained under Israeli occupation until 1974, when a disengagement agreement brokered by the United States handed two-thirds of it back

"We hear them saying: 'Look, we are growing things. They are doing nothing.' Lieutenant On June 26, 1974, President Hafez Assad

raised Syria's flag over the city again, and the date is known as Quncitra's Day of Liberation. It was a bittersweet occasion, for in the 10 days before their departure, the Israelis dynamited every building that had survived the military campaigns in the area.

Since then, not a brick has been rebuilt "The other side, they bring tourists to their according to Western estimates, of \$13 billion to side," Lieutenant Natur said. "We hear them \$17 billion for arms to match those Israel has saying. Look what we have done, and see what they have done — nothing."

He pointed to an Israeli agricultural settlement where a tractor fussed below a once-disputed hill whose bald dome now boasts a shock of antennae and listening devices aimed toward

Such point-scoring might seem a minor mat-ter, but other weighty thoughts intrude on these high plains whose encircling peaks offer a geog-raphy of confrontation — Israelis on one, Syrians on another, UN forces in between. Since 1973, Syria has pursued strategic parity

with Israel, building a debt to the Soviet Union, obtained from the United States.

This has led some Israeli military specialists to suggest that another confrontation may be inevitable. Another has not developed, but by some West-

ern accounts the relationship between Syria and the Soviet Union has become uneasy, in part because of Mr. Assad's feelings about this town and the land around it.

cause of Mr. Assad's feelings about this town at the land around it.

WORLD BRIEFS

Exiling of Solzhenitsyn Is Challenged MOSCOW (AP) - The Union of Filmmakers of the Soviet Union said Tuesday that it had asked the government to review the legality of the 1974 deportation of Alexander I. Solzhenitsyn, the Nobel prize-winning

Mr. Solzhenitsyn was deported and stripped of his citizenship after publication in the West of his three-volume study of the Soviet system of political prisons, "Gulag Archipelago." The union's request for reconsideration of Mr. Solzhenitsyn's exile is based strictly on legal grounds, said

Arkadi Vaksberg, a prominent lawyer and writer.

He was exiled "contrary to his will" and "without giving him the opportunity to defend himself," said Mr. Vaksberg. The filmmakers union is seeking a response from the Presidium of the Supreme Soviet by Mr. Solzhenitsyn's 70th birthday, Dec. 11.

Major Quake Seen Likely in U.S. East

WASHINGTON (AP) — A major earthquake is nearly certain to strike the eastern two-thirds of the United States in the next 20 year, threatening havoc in a region unprepared for such a disaster, the head of the National Center for Earthquake Engineering Research at the State University of New York at Buffalo said here Tuesday.

Robert L. Ketter declined to pin down a location, but he said likely sites included the areas of Memphis, Tennessee, Charleston, South Carolina, Boston, Salt Lake City and New York City. The probability of a destructive quake occurring at any particular spot is low, he said, "However, the probability of one occurring somewhere in the eastern

United States before the year 2000 can be considered better than 75 percent to 95 percent. Before the year 2010, nearly 100 percent, he told to symposium on quakes. He noted that, unlike California, the U.S. East has paid little attention to the danger.

U.S. Balks at Unveiling Stealth Jet

WASHINGTON (AP) — The Defense Department decided at the last moment Tuesday to cancel the official introduction of its Stealth iet fighter, forcing a senator to cancel a news conference and the Pentagon's spokesman to reassert official secrecy over the radar-evading plane.

Doug Fuller, a spokesman for Senator Chic Hecht, Republican of Nevada, said the senator had planned to discuss the Stealth fighter program with reporters Tuesday after the Pentagon unveiled the plane. According to Pentagon informants, the more than 50 Stealth fighters built for the air force are based at a tightly guarded facility in Nevalu plane, known as the F-19 by industry office and composite materials that evade detection by radar and other sensors Dan Howard, the Pentagon's chief spokesman, would not acknowled; that the department had been close to releasing information on the je nor would be explain why a public disclosure had been canceled, or confirm that there is a Stealth fighter.

Terrorists Slay Madrid Policeman

MADRID (UPI) — Leftist guerrillas shot and killed a policeman at a crowded government office Tuesday in the first fatal terrorist attack in the capital in nearly 17 months, authorities said.

One of the assailants fired point-blank at the policeman's head and shot him a second time as he lay on the floor. Police said the victin, Bernardino Ortega, 47, died instantly. The two other attackers, one of them a woman, then opened fire to force their way through a crowd waiting to renew identity cards. A second policeman was slightly wounded. Witnesses said the assailants picked up a pile of blank ideanty cards before flecing.

before fleeing.

State security officials identified the three as members of the leftist urban guerrilla movement known as GRAPO—the Spanish actoriym for October 1 Anti-Fascist Resistance Groups.

Cuban Dissident Will Go Into Exile

HAVANA (AFP) — Ricardo Bofill, one of Cuba's best known diss's dents and human rights activists, said Tuesday that he would be allowed to leave the country this week for West Germany but would not be permitted to return.

permitted to return.

Mr. Bofill, founder and president of the banned Cuban Committee for Human Rights, said he would leave Havana on Wednesday for Madrid before traveling on to Frankfurt. After undergoing medical treatment in Frankfurt, Mr. Bofill said, he will remain there to work for the International Human Rights Society. He said that he desired to return to his homeland but that Cuban officials would grant him only a one-way visa.

Mr. Bofill announced in July that he and other Cuban dissidents would try to form a political party. President Fidel Castro, however, issued a strong warning against any new parties.

For the Record

More than 245 million people now live in the United States, the Census Bureau said Tuesday, a total pushed upward by the combination of continued strong immigration and an increase in the natural growth of the population. As of Jan. 1, the total was 245,110,000 people, up from 142,255,000 and 142. 242,825,000 a year earlier.

Two bombs exploded Tuesday in the ethnically troubled Alto Adige region, damaging windows and cars and demolishing a railroad pylon. Italian police said in Bolzano. No injuries were reported. Responsibility was claimed by a German-speaking extremist group, Ein Tyrol (One Tyrol), that is seeking to reunite the region with Austria. (AP)

TRAVEL UPDATE

Albania Tours Offered by U.K. Firm

LONDON (AP) —A London travel agency announced Tuesday it will run the first regular charter flights from Britain to Albania.

Voyages Jules Verne, which specializes in exotic vacations, said it would begin twice weekly flights on Friday to Turana, the capital. The Balkan country, among the most politically isolated in the world, has opened up slightly since the death in 1985 Enver Hoxha, founder of its

Communist system.

Communist system.

The agency is offering a three-night Albanian weekend, including airfare, hotels and meals for £195 (\$330) and a full week from £259. Visas require a one-month wait. Passengers will be able to fly Mondays or Fidays with British Island Airways, a local charter line.

About 500,000 people die on the world's highways each year and by the turn of the century, a million lives will be lost annually, according to a study released Monday by the Highway Safety Research Center at the University of North Carolina in Chapel Hill. Injuries requiring hospitalization also will double to 5 million by the 2000, and all injuries will increase to 30 million, the report said.

Brazil says it will start checking domestic airline passengers for weap-ons, following a hijacking last week in which a co-pilot was slain. Officials said passengers would be screened by metal detectors and baggage would be x-rayed or inspected by hand. (Reuters)

Governor Michael S. Dukakis heaving contraband drugs into an incinerator in Detroit to emphasize his position on illegal drugs.

THE HUSTINGS

Dukakis Calls Bush a Failed Official

EVANSTON, Illinois (AP) — Governor Michael S. Dukakis said idesday that Vice President George Bush had failed every assignment in office and that American business had suffered as a result.

"We cannot build a strong and vibrant economic future for America on

a mountain of debt, and the American business community knows that," Mr. Dukakis, the Democratic nominee for president, said in a speech at Northwestern University.

Mr. Dukakis said Mr. Bush had failed his assignments on promoting U.S. sales in Japan, reforming regulated sectors of the economy, blocking the entry of drugs to the United States, curbing international terrorism and reforming the nation's banking system.

"Mr. Bush was given five important missions by this administration and he failed every one," Mr. Dukakis said.

Democrats Aim for War-Chest Parity

BOSTON (Renters) - For the first time since 1974, when Congress imposed spending ceilings for presidential elections, the Democratic Party is mounting a serious challenge to the Republican fundraising

Robert Farmer, the chief fundraiser for Governor Michael S. Dukakis, says he aims to raise \$50 million for the Democrats, and the usually prosperous Republicans have vowed to match their rivals dollar for dollar.

"We are making history — this is the first time we've even come close to the Republicans," Kristen Demong, the Democrats' chief of financial

For the Debate, a No-Win Situation

WASHINGTON (NYT) — All those "highly informed" television reporters are torn with grief. All those eager campaign analysts, all those expert columnists covering the political campaigns, all those political consultants who appear with the network anchors — all are deeply

The reason: word that the vice-presidential debate on the major television networks Wednesday night will be followed immediately by regular programs, with no political discussion.

So there will not be the normal half-hour "spin" by all the experts who tell the unenlightened viewers who won and who lost.

U.S. Agency Says It Hid **Nuclear Plant Incidents**

By Keith Schneider New York Times Service

WASHINGTON — The De-partment of Energy said it was responsible, along with its predeces-sor, the Atomic Energy Commission, for keeping secret from the public a number of serious reactor accidents that occurred over a 28-year period at the Savannah River plant in South Carolina.

The Energy Department on Monday exonerated E.I. du Pont de Nemours & Co., the operator of the enormous nuclear plant, from responsibility, saying the company had fulfilled its obligation to notify the government about the inci-

The department spokesman, C. Anson Franklin, said Du Pont had notified the regional office in Aiken, South Carolina, near where the plant is situated, but the information apparently never made its way to the secretary of energy or his deputies in Washington. Moreover, a memorandum writ-

ten in 1985 by a Dn Pont scientist to his superiors summarizing 30 "reactor incidents of greatest significance" at the federal nuclear weapons plant, which included the melting of fuel and extensive radioactive contamination, was never

The Energy Department said it countries opened Monday, the offiwas seeking to determine why cial MTI news agency said.

nothing was done about the memo-

The department said the failure to disclose the problems illustrated a deeply rooted institutional practice, dating from the days of the Manhattan Project in 1942, which regarded outside disclosure of any incident at a nuclear weapons production plant as harmful to nation-

> Lawmakers and managers at the Energy Department said Monday that the agency was torn by conflicting views of what sorts of events at the plant should be made available to the public.

The conflict is dividing Secretary of Energy John S. Herrington, an advocate of more stringent safety procedures and public candor, and many of the agency's managers sta-tioned at field offices near the 17 laboratories and production facilities that make up the weapons production complex.

 Hold seats in California, Connecticut, Delaware, Minnesota, Rhode Island and Wyoming, where Democratic challengers are within

striking distance of Republican incumbents. Democrats believe they have at least an even chance to win in Minnesota, and the Republicans' position in California and Rhode Island is only slightly less

 Win the five seats other than Virginia where no incumbent is running. In Vermont, Rep. James M. Jeffords, a Republican, is said to be comfortably ahead. The contests in the other four states—Florida, Mississippi, Washington and Wisconsin—are toss-ups at this stage, with the Republicans

seemingly slightly stronger in Flor-ida than in the other three.

 Win upset victories over Democratic senators in at least two of the following states: Montana, New Jersey, New Mexico, North Dakota and Ohio. Earlier in the year, all these seats seemed ripe for Republicans, but the challengers have not fared as well as party leaders hoped.

Tom Mason, communications director for the National Republi-can Senatorial Committee, framed the contests slightly differently. He maintained that to win control of the Senate his party would need to win three of the five states be calls the "M and N states": Montana. Nebraska, New Mexico, Nevada and North Dakota. He acknowledged that Republican candidates were now behind in all five.

Honor to Peacekeepers

far-flung UN peacekeeping forces is al-most everyone's idea of the way these things ought to be done. The award captures the spirit of the day, at a time when this service of the United Nations is being applied in new places - the Gulf, Afghanistan, perhaps next in the Western Sahara and Namibia. It also bestows deserved recognition on a function that is at the heart of the world organization's founding purpose and enduring rationale.
Currently the United Nations has seven

peacekeeping missions going, with a total of about 10,000 people in Cyprus, along the India-Pakistan cease-fire line in the disputed region of Jammu and Kashmir, and in several Middle East locations, plus the Gulf and Afghanistan. Over the years, 733 peacekeepers in their trademark blue helmets have been killed — in the name of the abstraction of international peace. Some governments may have had a political purpose in putting their soldiers at risk in this cause, but many of them also felt the tug of a powerful ideal. One American member of a current UN peacekeeping mission, Lienten-ant Colonel William Higgins, has been a pris-

oner of terrorists in Lebanon since February. It is quite likely that the bestowers of this Nobel had in mind something beyond trib-ute. The Soviet Union and the United States have evaded their financial obligations to peacekeeping operations, adding to the immense strains on the work, budget and mo-rale of the United Nations. Only now are the two great powers ready to acknowledge, in parallel, the advantages of controlling international chaos through this service. For the two of them to join in the applause for the prize without paying their full assessments promptly should be unthinkable.

The award draws notice to the connection between peacekeeping and peacemak-ing. Peacekeeping can and often does mean stilling the guns and separating the combat-ants but not necessarily resolving the disputes that put them at odds. But "peace" in the sense of a cease-fire or truce can help establish the conditions for seeking a deeper peace while limiting human suffering and loss, and preventing disputes from being resolved on the basis of strength alone. These are the plentiful gifts for which United Nations peacekeeping is honored now. —THE WASHINGTON POST.

Let 100 Sports Bloom

South Korea deserves Olympian honors for staging a glorious global spectacular the first trouble-free Summer Olympics since 1964. More athletes from more countries competed in more events than ever before. But these superlatives raise yet another question: Is the Olympics getting to be too much of a good thing? Too many events, not enough focus?

Ask any 10 viewers which events to zap. which to keep and what to add, and you will get 10 answers. After the outrageous mishandling of several boxing bouts in Seoul. some argue for eliminating all sports that involve subjective judgment. Although the brutality of boxing is grounds enough for its elimination, a no-judges rule would mean no diving either, no Greg Louganis.

Others would cut out sports that have focal world championships of their own, like tennis with its four grand slam tournaments, a sport that was restored to the games this year. But such a standard would also knock out soccer, an established Olympic sport.

Others propose eliminating synchronized swimming. Too arty, they say; not a "sport." More arty than figure skating? In any case, judging from all the air time NBC gave it, there must be a big audience. And if synchronized swimming goes, can tae kwon do or handball be far behind? Incurable romantics yearn for classical

purity. Like the ancient games? Those were for Greek males only, no women. That wouldn't fly now. The government gave winners cash prizes. Some do nor", most don't. Today, under the loose reins of the international committee, national and interna-

tional federations for each sport set their own rules. So tennis, for example, can be all-professional, while basketball is mixed. Don't expect consistency soon.

The Olympics are growing, and soon will grow again; baseball will become an official sport at the Games of the XXV Olympiad in Barcelona, and bowling wants to be. Jousting over how the Olympics should

be run is not yet an official sport, and there may be no way to limit the growth. Smart television producers may wish to be discriminating in what they transmit, but, as for which events are included in the Olympics, let a hundred sports bloom.

-THE NEW YORK TIMES.

Once again, not everything went well in the Olympic Games. There was a major drug scandal, some outrageous judging, another infusion of professionalism and a continuing excess of nationalism. In other words, it was pretty much the Olympics-asusual - not a bad outcome considering the

dark clouds of apprehension that hung over the Games when the torch was lit in Seoul. At that time there were still fears of some devastating act of terrorism by North Ko-

rea or some more distant elements. Long before the Games had ended, though, the fears had been largely forgotten. The South Korean government and people did themselves proud in playing host and in keeping the peace; the biggest threat to the prevailing harmony was the Koreans' displeasure with some of the American television coverage of them - a complaint they share with a number of recent American presidents.

As for the American athletes, they took a step back down from the heights scaled at the 1984 Games in Los Angeles, where a boycott by Eastern bloc nations allowed U.S. domination. This year the East was back, and the Americans finished a distant third in the nation-by-nation medal counts.

Afterward as usual some American sportsmen called for a better-financed and better-disciplined U.S. effort, and indeed a number of gold medals were apparently lost solely because of laxity or lack of practice a boxer fails to get to the ring in time for his bout, a baton pass is missed in a relay race, a young gymnast observes a performer from an illegal place, causing a damaging penalty against the U.S. team. But also as usual there were those electrifying and often unexpected triumphs from the Americans — the swimming victories of the tiny Janet Evans; the wild celebration of the U.S. baseball team and its one-handed winning pitcher, Jim Abbott; the heart-stopping rush of sprinter Evelyn Ashford as she surged to victory in the final leg of the 400-meter relay.

Such moments have more to do with the spirit of the Games than do the medal counts. On the final night, the American boxer Roy Jones was deprived of a gold medal by the judges in a bitterly disputed decision. Shortly afterward, Andrew Maynard fought Nourmagomed Chanavzov of the Soviet Union in a light-heavyweight bout. The two fighters battered one another for three rounds, fighting bravely if none too artfully, displaying both the best and the worst of this sport which dates back over two millennia to the ancient Olympic Games. When the final bell rang, Mr. Maynard, exhausted, braised and with no particular reason to think that these judges would proclaim him the winner, nevertheless turned and embraced his opponent, and the two. with their arms over one another's shoulders. pivoted awkwardly, bowing to the crowd on all four sides of the ring. When, a few minutes later, Mr. Maynard was proclaimed the winner, it was almost an anticlimax.

A Thaw Between Two Giants

Beijing and Moscow are beginning to move closer in their thinking. While their national interests continue to command priority, they share the view that they would be better off if the tension between them were reduced. Both sides are occupied with revamping their economies and removing the fetters that communism imposed on individual initiative. This is not an easy task, and they realize they have enough problems without having to take upon themselves the added burden of ever-rising defense spending.

if a Deng-Gorbachev meeting has become a possibility it is because the Soviets have started to solve two of the three obstacles which the Chinese insist have to be removed before relations can be normalized. Moscow is withdrawing its troops from Afghanistan. It has pulled its forces back from the Chinese-Soviet border. More importantly, the Soviets appear to be putting pressure on Vietnam to pull its troops out of Cambodia. The amount of that pressure, and the degree to which Moscow is willing to risk the loss of Cam Ranh Bay, are unclear. For the moment, the Chinese are satisfied that the Soviets are willing to help resolve the Cambodian issue.

Chinese-Soviet normalization promises to yield economic dividends for the two countries. Border trade, which is already

booming, will further increase. The exchange of Chinese consumer goods for Soviet timber and machinery will be broadened to include other commodities. Because the goods are bartered, both sides will be able to conserve their limited foreign exchange. From the regional perspective, the reduction of tension between the two enhances peace in this area. The weapons of destruction which both sides have are awe-

some [and] capable of igniting a world war. This is not to say that China and the Soviet Union will no longer compete for influence. They are likely to continue to do so. What is encouraging about Chinese-Soviet developments in recent years is that the desire to limit tension and prevent differences from spilling into open conflict is stronger than ever before.

Knitting Pakistan Together

The return of party politics to Pakistan was always going to be difficult. Army rule has alienated the population from the government. A denial of democracy now could only make that estrangement worse. But a free and fairly elected government which could claim to represent all the people just might be able to knit the country together again.

Mr. Conservative Shows the Candidates the Way

WASHINGTON — With a sense of timing far better than he could have calculated, Barry Goldwater this month publishes his autobigraphy. In "Goldwater," the 1964 Republican presidential nominee and hero of the modern American conservative movement reflects on an unusually rich life of almost eight decades and on the current political and governmental scene.

His collaborator, Jack Casserly, has not cen-

sored Mr. Goldwater's uninhibited vocabulary, so the book bristles with characteristically pointed Goldwater judgments on people in politics, business and the press who have crossed his path. What makes it pertinent, beyond the pleasure of

hearing the authentic Goldwater voice one more time, is the light it sheds on today's Republican Party. It is a party to which Mr. Goldwater, probably more than anyone else, gave his stamp.

Today we are accustomed to thinking of the Republicans as the party of conservatism. Before 1964 that was hardly the case. All through the 1930s, '40s and '50s, moderate-progressives con-trolled its nominations. In 1960 a political chame-leon, Richard Nixon, signed a deal with Nelson Rockefeller that cinched his nomination. He chose as his running mate a liberal Republican from Massachusetts, Henry Cabot Lodge. Eight years later the deal that nominated Mr. Nixon was signed with Strom Thurmond of South Carolina. And when it came time to choose a running mate, Mr. Nixon passed up the governor of Massachusetts. John Volpe, and chose a more right-wing

new face, Spiro Agnew of Maryland.
What had happened in between was the Goldwaterization of the Republicans — the most significant losing presidential campaign since Al Smith's By David S. Broder

in 1928. Just as Mr. Smith forecast the shape of the New Deal coalition, Mr. Goldwater's race re-shaped the Republican Party in ways that let it win four of the next five presidential elections.

He moved the party south and west, out of the
Atlantic seaboard and the Middle West and into the Sunbelt. He moved it from advocacy of federal civil rights action to a position of hostility or indifference. He moved it rightward on a whole

variety of other issues, and it has never gone back. Ronald Reagan got his start in that 1964 campaign, with a memorable national television address. George Bush has his roots in the same experience. He first ran for office (a Texas Senate seat) in 1964 and called himself "a Goldwater Republican." The link between the two men is provided by Dean Burch, the young lawyer on Mr. Goldwater's staff who became the Republican national chairman in 1964 and who is today one of

Mr. Bush's closest friends and advisers. Mr. Burch is just one of scores of Republicans still playing key roles who were drawn into politics by Mr. Goldwater's campaign. Why was it so influential? Because Mr. Goldwater took the issues seriously but was wonderfully irreverent about himself. It is a lesson that both Mr. Bush and Michael Dukakis could profitably ponder.

Reading this book, you are left in no doubt why Mr. Goldwater told a startled Dan Quayle recently to "tell George to start talking about the issues." That is what politics is about to him - not the pursuit of power but the clash of ideas. He was eager to compete in 1964 against John Kennedy,

for whom he had great affection, because he knew that Mr. Kennedy would debate policies.

He dreaded running against Lyndon Johnson, and not just because his political judgment told him that the American public would not vote to change presidents again just a year after the trau-ma of the Kennedy assassination. Mr. Goldwater also guessed correctly that Mr. Johnson would not tolerate a principled debate on the issues. But he went out and talked about his beliefs in what he

knew was a foredoomed campaign.

That stick-to-his-guns quality was half of Mr. Goldwater's appeal. In contrast, Mr. Bush is campaigning like a man who can't stand the thought of losing. That fear has led him to use tactics that Mr. Goldwater — who gave him an important endorsement last winter in New Hampshire — plainly can barely stomach. It has led Mr. Bush to hedge on his basic beliefs.

The other half of Mr. Conservative's appeal was

his indelible sense that there is more to life than politics, that friendships and fun are not dependent on the vote count. Every aspiring candidate should read the chapter called "A Double Life," in which Mr. Goldwater contrasts "the straight life" of his political career with "the sweet life athlete, ham radio operator, pilot, car buff, pho-tographer, gadgeteer and all-around tinkerer."

Mr. Goldwater knows that victory can have too

high a price; just read his scathing words on Mr. Nixon. And he is living proof that defeat can be the source of future vindication, if you are true to your convictions and keep a sense of humor about yourself. His autobiography is a reminder that politics can be both principled and pleasurable. The Washington Post.

With Help, Haiti Can Still Engineer a Democracy By Ernest H. Preeg

WASHINGTON — There was great hope for democratic reform in Haiti when Jean-Claude Duvalier was driven into exile in February 1986. Now, 32 months and four governments later, skepticism and cynicism characterize the public mood. Is democracy in Haiti possible under any circumstances? Does the United States have sufficient interests in Haiti to get further involved in an apparently hopeless cause?

To answer the latter question first, yes, the United States does have special interests in Haiti. Political upheaval in this poor Caribbean nation could send waves of refugees on foot into the adjoining Dominican Republic, with destabilizing effect on that struggling democracy, and by boat to the beaches of Florida.

Economic collapse could lead to food and petroleum shortages and calls for greatly increased external aid. Moreover, the establishment of an unfriendly regime there, only miles across the Windward passage from Cuba, could open that strategic waterway to virtual free passage of Colombian drug traffickers.

Before the Sept. 17 coup that

brought General Prosper Avril to the presidential palace, the military government under General Henri Namphy had painted itself into a corner of political isolation and eco-

WHO YOUR

American Intervention Would Be Folly

AS Haiti lurches from crisis to crisis the United States stands by seemingly impotent, incapable of deciding either to bring real pressure on the regime to mend its ways, to use economic aid to keep the country from sinking

still further into poverty — or to intervene militarily.

The last time the United States intervened in Haiti was in 1915. The

situation was not unlike today's. There had been continuous civil war,

Washington was perturbed. Would the Europeans intervene? The Panama

Canal had just opened, which appeared to increase the strategic importance of Haiti. On July 28, marines and sailors from the USS Washington marched into

The record of occupation was mixed. The Americans provoked resentment

U.S. companies bought up the best land and evicted the peasants. Yet Haiu developed as never before. There were roads, hospitals, ports and the first

But resentment continued to build, and an independence treaty was finally signed in 1933. Within years the roads and ports fell into disrepair, the phones

stopped working and the hospital equipment rusted.

Would the United States do better in 1988? There is no reason to think so.

America should do one thing: revere economic aid and let the poor know it cares. Beyond that, the Haitians have to do it themselves.

- Jonathan Power, International Herald Tribune.

automatic telephone system in Latin America. There was political calm.

reintroducing the French system of forced labor to build public works. Big

rebellion and riots, and six presidents in four years. The last one, Guillaume

Sam, had been captured by a mob and hacked to pieces.

the capital. A bemused populace offered no resistance.

nomic stagnation. It had violently aborted democratic elections last November and jettisoned the new constitution, adopted last year as a basis for democratic, civilian rule.

U.S. economic aid to the Haitian government was then cut off, and aid from France. Canada, and the World Bank has been greatly reduced. Foreign exchange reserves are exhausted. Development projects languish. New private investment is virtually nil. Some companies may pull out.

President Avril faces the challenge of putting the country back on the track of political and economic re-form while consolidating his power base within a rebellious army.

Haiti has become a tinderbox. Its

small, ill-equipped army of 7,000 is the only available force for maintaining law and order. The country has a long history of violence, and when there is no tangible hope for the future, frustration builds. Whether the threat of violence comes from the still relatively unorganized radical left, from the oldguard Duvalierists or from democratic elements opposed to military rule, the outcome would be tragic.

How did everything go so wrong? How can it be put right? The course of events from February 1986 to the aborted election of No-

vember 1987 was reported by U.S. media largely in terms of its confor-

mance with the American model of democratic government: the drafting of a new constitution, the separation of powers under a duly elected president, and a free and fair election campaign. Such a course appeared to be in evident self-interest of all Haitians. Unfortunately, this was a naive

misreading of motivations in Haiti. Key elements of the power structure, particularly the Duvalierists and the army, felt threatened. Top Duvalierists were excluded from candidacy in the elections, and post-election retri-bution was feared by many. After more than three decades in power, the movement had become a parish, with prospects for near total exclu-

sion from the new government.

The situation of the army was even more critical since it controlled the transition. Historically, the army dominated the political process in Haiti. François "Papa Doc" Duvalier, however, broke army control of political power, largely through creation of a rival security arm, the dreaded Tonton Macoutes. When the latter was disbanded in February 1986, army control of the security apparatus was ef-fectively re-established.

The numerous presidential candidates, including the half-dozen or so "centrists" with the best chance of winning, had weak to nonexistent power bases of their own to counterbalance the disconsolate Duvalierists and the increasingly ambitious army leadership. So these candidates competed for popular support by pledging retribution for past wrongs, thus increasing apprehension among Du-

valierists and army officers. The manipulated election of Leslie Manigat as president in January led to ater consolidation of army control. He was a respected intellectual who had been living in exile, and the principal members of his cabinet were also returned exiles. This tended to alienate the government from many qualified Haitians who had stayed in the country through the Duvalier years. The Manigat government had no real power base within Haiti.

In a somewhat obscure showdown with factions of the army leadership, Mr. Manigat lost, and was flown to exile on June 20. General Namphy returned to the presidency only to be ousted, in turn, last month.

The United States cannot control events in Haiti, short of a military invasion, which no one advocates. Nevertheless, it does have considerable ability to influence the outcome. What does this mean for the weeks and months ahead? First, Haiti should

not be ignored during the election and transition periods in the United States. Washington should make certain points clear to various sectors in Haiti: Economic recovery and susta development in Haiti are feasible in : relatively short time, given a democratic government that is competent to manage its economic programs. Haiti has the great strength of its human resources: an able, self-confident cadre of private sector leaders and technocrais, a labor force willing to work hard and learn fast, and a culture

thus the overall economy.

• The United States stands ready to in Haiti. Economic aid would focus on the enormous needs in rural infrastucture, health care and education. Private sector support would promote new investment and job creation. • The need for democratic, compe-

tent government is the central challenge for Haitians, and the specifics can be worked out only among Haitians. In general, this would appear to mean some form of national conciliation and unity. Respect for human rights and a stop to violence must come first. Cooperation among democratic groupings should focus on the future, not on past wrongs. The army would have to relinquish its historic dominance. The Duvalierist political network, which is far broader than the relatively few Macoute thugs, would somehow have to cease being a threat to democratic rule while offering up the talents of individual mem-

Haiti has a potential for democracy, as shown by the orderly plebiscite held last year on the new constitution. Now, however, the issue rests largely on President Avril's shoulders. He is a career military officer, tainted by his years under the Duva-liers. But he is an intelligent man, shrewd enough to realize that mili-tary rule has reached a dead end and that real democratic reform is imperative if the international community is to resume its economic support for

kis issued this challenge, as if it were George Bush and not he who had been caught out in a contradiction, one can hardly blame him for his haste. Given the chance to think it over, people might have been reminded that had his own views on defense policy prevailed, the Soviets, far from it finding it advisable to reach agreements with America, would have had a hard time deciding whether to laugh with relief or with contempt for America's incapacity to grasp the real properties and uses of power. So it appears that Michael Duka

kis will go on until Election Day, on the one hand unable, lest it cost him the election, to be the full-throated disarmer his true constituents want him to be, and on the other hand hemmed in and disarmed himself by the need to pretend that he means to bear Ronald Reagan and George Bush at their own game.

The truth is, however, that this is a The writer, U.S. ambassador to Hai- game his ideas would disqualify him even from playing, let alone winning.

Can't Have A Boswell Waxes Nostalgic Both Wa About Dinners With Andrei

By A. M. Rosenthal

N EW YORK — This morning I woke up with a deep sense of nostalgia. I was stunned when I suddenly realized who I was being nostalgic

about Andrei Gromyko!

Mr. Gromyko and I go back a long time together, though I wonder sometimes if he knows a thing about it. But oh, what we went through togeth-

er: the walkouts from the United Nations — he leading, me following — the daily clash of minds between two men doomed to be political adversaries but, withal civilized in social encounter, never forgetting to bow to each other injuries in social carbonatic dimers.

File was responsible for my first promotion up the ladder of journalism.

ON MY MIND

Dare I think that I played a role in his rise? I dare.

As the years passed we drifted apart, Andrei and I. Our lives took different paths - he on to be foreign minister, member of the Politburo and then president of the Soviet Union while I was left behind, just hanging around The New York Times. We became more and more separated philosophically and politically. I maintained my grumpy attitude toward totalitarian regimes, including the Soviet Union's. Andrei and I were both Comnumists, only he was pro and I anti.

/ Even Mikhail Gorbachev did not en-

turely cure me of suspiciousness. I still tend to peck under stones at everything Mr. Gorbachev does - including the policy, so understandable to learned American Kremlinologists, of fostering Soviet democracy by gathering all Soviet power into his own hands. But, unlike me, Mr. Gromyko showed

magnificent flexibility of mind. Under Stalin he handed it out hot and heavy to the imperialistic, treacherous West. But when Nikita Khrushchev came along, Mr. Gromyko was able to show the resilience that is the mark of a fine mind anywhere, and in the Soviet Union also a handy tool for survival.

Not a cavil about the West passed his lips. Indeed, once at a meeting with Prime Minister Harold Macmillan of Britain, Mr. Khrushchev waved at Mr. Gromyko and said that if he told him to sit on a block of ice, sit he would until hell, or whatever, froze over.

He remained wonderfully flexible un-der succeeding Soviet rulers and for a while seemed to be getting along just fine with Mr. Gorbachev.

But then, one day, Mr. Gorbachev threw his arms around Mr. Gromyko and whispered those words that, even in anticipation, make tough executives of a certain age whimper in misery: "Andrei, i need your job. We have to make room

for younger men of talent."

The fact that the younger man of

talent in question was none other than Mr. Gorbachev perhaps was a balm to Mr. Gromyko's spirit.

But when I read that my friend had been removed from the Soviet presidency, I thought not of disputes but of the fine times we had had together, whether be knew it or not I recalled the day when he walked out of the brand new UN, the first of a series of walkouts that made "pull a Grom" part of the slang of the day, like "let's roil."

I was a very young reporter on The Times's city staff and, nobody else available, was assigned to stake out the Soviet Consulate, where he had holed up. Suddenly Mr. Gromyko emerged and said he was going back to the UN.

All the reporters ran for phones, but I I hopped into a cab, pointed to the Gromyko limousine and, so help me. said: "Follow that car."

Mr. Gromyko did not go back to the UN but spun around town, my cab keeping up. He just wanted fresh air. As a reward for my initiative, I was commit-ted to the UN bureau of The Times, there to remain for nine years.

I became Mr. Gromyko's Boswell. I must say he never seemed to appreciate it. Never once did he say a kind word to the young reporter. Is it possible he did not even know I was there? Was he

bowing to somebody else?
Still, I cherish the thought that perhaps I helped make him what he is today, or at least was until a few days ago. Mr. Gromyko was an appararchik. When he was told to denounce, he denounced. Told to make nice, he did his best. Instructed to help cover up the true story of the late of Raoul Wallenberg, he did.

He is not given to revealing his thoughts. Once some important Americans invited him to secret talks about the possibility of improving Soviet-American relations in a Manhattan apartment.
He listened. What he thought of it himself, knows God, certainly the others in the room never did find out.

And the day he left the United States, after having spent 10 years in Washington and New York, a reporter asked him whether he had enjoyed life in America.
"I worked here," said Mr. Gromyko.

So I guess I never will find out whether he ever gets nostalgic about me, and the old days at the United Nations, and all that.

The New York Times.

Health, Shmealth: Let's Just Put a Warning Label on Life

By Richard Cohen

WASHINGTON — On the second will not prompt a display from the floor of the Washington Post Health Center. Christmas is its favorite building is the cafeteria, and next to it is the Health Center. Almost every day, taking instruction from my stomach. I go down to the cafeteria and pass the Health Center. Almost every day, the Health Center makes me sick.

During the summer, for instance, the Health Center covered a nearby wall with a display warning of skin cancer.

MEANWHILE

From what I could tell, more than two minutes in the sun would result, without a doubt, in skin cancer. There were, I think, pictures of people who, having rushed outside to retrieve the cat, died almost instantly from the sun's effects.

This sort of thing goes on year-round. There is not a holiday you can name that

U.S.-Philippine military base talks. It may be that the Philippines would

derive greater benefit from having to

work for its money rather than getting a

handout from the bases; it may be that

the Filipinos want to know they can look

after their own security without the need

Regarding the article "Pun on 'Ovens'

France has produced such political

figures as Philip Augustus, Henry IV, Richelieu, Mazarin, Talleyrand and de

Gaulle. One can only hope that such a

for a Big Brother nearby.

Footnote of History?

Le Pen is a detail historique.

holiday. To the Health Center - indeed, to health professionals everywhere -Christmas is not a joyous holiday but a debacle waiting to happen. Tis the season of overeating and overdrinking. Tis the season of great expectations and, therefore, great depression. Tis the sea-son of loneliness, anxiety, anomic, anguand, for good measure, skin cancer. Next comes New Year's Eve, which to

the Health Center, is a plague in disguise. Food and drink. More food and drink We overindulge. Our cholesterol levels rise, blocking our hearts, which causes, precisely two days later, skin cancer.

To me the Health Center has come to symbolize all that is unhealthy about the current health fad. Everything that was once enjoyable turns out to be unhealth-ful. I speak, of course, of steak, which I love. I speak of butter, which I also love. I speak of booze in moderation and. from time to time, in immoderation. which creates a temporary behavior change without which life would be one vast treadmill from birth to grave.

But life has its risks and perils. We expect something special from Christ-mas and New Year's Eve because they are, after all, special. We often expect too much. But every once in a while (Health Center, take note) Christmas is truly wonderful and New Year's is a special night of romance and nostalgia made all the more special by the imbibing of a bit of cholesterol.

know the Health Center means well. But its displays fill me with foreboding. There is no activity, no holiday, that sooner or later I do not come to see as a peril, a menace. As I pass the displays in the weeks before Christmas, I come to think there is no way I will survive the holidays. I kept a wary eye on the Health Center bulletin boards in the weeks preceding Flag Day. What would they come up with? What about the dye used in flags? Oh boy! Just touch a flag and within a day or two you're a goner.

How did the human race get by before health centers? Here were all these people eating meat, drinking booze, celebrating Christmas and New Year's - and some-Regarding "From Jews in America and in Israel, a Split Ballot" (Sept. 27): how they survived. Golly, they must have been a depressed lot! Their lives were a Wolf Blitzer of the Jerusalem Post roller coaster of soaring expectations could hardly be accused of anti-Semi-("Pray, canst thou be my valentine, Priscilla?") and crashing disappointments ("Thou pleaseth me not, Miles").

But it was life. It was life in all its uncertainty and unpredictability - a tough life for most people, a struggle broken only by an occasional holiday. It was, in fact, holidays that helped pull them through. Now life is easier, but the holidays, like cigarette packs, bear warning labels. Columbus Day is coming up. Take heed. It nearly killed Columbus. Washington Post Writers Group.

LETTERS TO THE EDITOR

Olympics in the Larger World: Not All Rivalry Is Healthy

Regarding "... and by the Way, Thanks for the 8 Basketballs" (Sports, Sept. 20) and "The New Olympians: Wunning Is Everybody's Business" (Opinion, Sept. 20):

These two articles form an interesting contrast. The first, on the surprise opening-round victory of the Central African Republic's basketball team, reads almost like a fairy tale. A joyous player's comment, "We cannot know anything better than this," seems to me a perfect expression of the Olympic spirit. The second article, in which Samuel

Pisar uses the "vigorous international rivalry" in the Olympic Games as a metaphor for the healthy spirit of com-petition in a "wide open" world economy, exemplifies the dangerous king-ofthe hill thinking that seems to domin discussion of world affairs in this American election year. Even as it emphasizes the emergence of a new set of players, Mr. Pisar's talk of "the Olympic struggle for economic survival" ignores the fact that a solid majority of the world's people are simply not in the race.

The Seoul Olympics are the first Games I have viewed from outside the United States. I was able to join my neighbors in rooting for athletes who had precions little chance of winning, Granted, it was difficult to follow the Games when there was no electricity, as was the case the night I read the two articles, but these things - power shortages and losing -are just part of life here, as they are, I'm sure, in the Central African Republic. To my neighbors, and to the rest of the Third World, terms like "struggle" and "survival" mean something a bit more immediate than they do to Mr.

Pisar, Michael Dukakis or George Bush. Some 160 nations were able to send athletes to Seoul. All were glad to take

part, but not all expected to win. In economics as in sports, the three-or fourway battle for the gold is only part of the story. The article about the basketball team is a wonderful story of inclusion cooperation and participation; Mr. Pisar's piece, on the other hand, is a too familiar story of threats and domination

of winners and losers. If we are truly interested in survival, perhaps we need to include the peren-nial losers in our plans for global progress. The Olympics, and the world, will be the better for it.

JON MILLER. Los Banos, Philippines.

A Glasnost Test in Poland

Regarding "Once More, Poles Arise in Protest" (Opinion, Aug. 27): Thank you for the brave and sensible

comment by A. M. Rosenthal on the recent unrest in Poland. For more than two centuries Poles have been threatened by their huge and aggressive eastern neighbor. Since World War II they have had to put up with the Quisling-type government im-posed on them by the Soviets. Now, for

the first time in modern history, political fresh air seems to flow to Pola the east, obstructed only by General Wojciech Jaruzelski and his cohorts. The time has come to test Mikhail Gorbachev's intentions. A relatively prosperous and politically stable Poland

Jaruzelski to allow for internationally supervised, democratic elections in Po-land, that unfortunate part of Europe will be able to enter a new era, something its people justly deserve. JANUS R. AVIVSON,

well as the leaders of Western nations.

exert just a gentle pressure on General

Islam Is No Stranger There Regarding "In Pakistan, Obstacles to Democracy" (Opinion, Sept. 2):

Narendra Singh says that India wants democracy in Pakistan because it "would give greater voice to younger Pakistanis, less obsessed with India than their elders." He is sadly mistaken. When the Pakistani youth learn of the systematic persecution of Moslems in India they blame their elders for being

silent spectators to this tragedy. Moslems of the subcontinent created Pakistan so that they could pattern their lives in accordance with the teachings of Islam. The idea that the Islamization plan in Pakistan was aimed at "altering the disposition of a whole people" is a figment of Mr. Singh's imagination.

MUAZZAM ALI.

No Big Brother Needed

Although it must be hard for Americans to think anybody could get along without them, Jeane Kirkpatrick ("For a Collective Approach to Security in the Pacific," Opinion, Sept. 17) might at least have allowed for the possibility of reasoning behind the stance of Foris in the Soviets' best interest. If they, as eign Secretary Ranl Manglapus in the

tism, but in his otherwise perceptive opinion column, he says that American

Jews begin to think of purely American issues only after they feel sure that the two presidential candidates are both safely pro-Israel. Does he realize the extent to which this remark, coming from such a respected journalist as himself, is taken as confirming the worst suspicions of cynics in both camps? MILES COPELAND.

GENERAL NEWS

In Cape Town, a Rare Apartheid Debate

By Christopher S. Wren

CAPE TOWN - To a hushed andience, the Reverend Allan Hendrickse described in detail how his father's "beautiful home" had been knocked down, brick by brick, when their old neighborhood in Uitenhage was declared legal for

whites only. Mr. Hendrickse, the leader of the mixed-race Labor Party, was not preaching to the converted at a church or anti-spartheid rally. He was addressing the Parliament of South Africa, whose wood-paneled chambers have seated the stannch

defenders of white supremacy.
"You can shake your head, but you stole my ground," Mr. Hen-drickse said, looking directly at the disapproving members of the rul-ing National Party, before the speaker, Louis Le Grange, ruled him out of order for characterizing an act of Parliament as theft.

We were robbed of our birthright," the unrepentant Mr. Hendrickse persisted. The drama was played out at a rare joint session of Parliament, whose three separate chambers had

convened to debate new govern-

ment legislation amending the

Group Areas Act, which is the legal

basis for the world's most explicit

residential segregation.

process of gradual change. Its liber-al critics contend that the amendments will usher in even greater cruelties, while conservative legislators see the door being left ajar to Communist anarchy. The amendments legalize some

"free settlement areas" open to all races, generally in neighborhoods that have already unofficially inte-grated. But they tighten up existing segregation provisions, eliminating a prohibition on evicting anyone until alternate accommodations have been found and imposing harsher penalties for violations, inchiding the forced sale of a house that a landlord of one race rents to a tenant of another race.

The emotion suffusing the de-bate seemed inevitable. But it was not quite what President Pieter W. Botha had in mind in 1984 when his government tried to appease critics of South Africa's whitesonly legislature, the House of Assembly, by creating a mixed-race chamber, the House of Representatives, and another smaller forum for ethnic Asians, the House of

Delegates. The formula ensured a continuing white majority by apportioning two mixed-race seats and one ethnic Indian scat for every four exist-

Anti-anartheid political groups attacked the expanded Parliament as a fraud, and mixed-race and Indian leaders who consented to run for Parliament, including Mr. Hendrickse, were labeled collaborators.

The elections were widely boycotted, with fewer than 10 percent of eligible voters turning out in some constituencies. Mr. Hendrickse's own church and family split over the issue, said his son Peter, who also sits in the mixedrace chamber of Parliament.

But Allan Hendrickse, who led the Labor Party into Parliament for what he said was a five-year trial period, said he thought that participation was beginning to pay off.
"White apartheid is looked upon

as a granite wall," Mr. Hendrickse said in an interview. "We said, instead of just bumping against the granite wall, let's start chipping Although some constituents still see their participation as a sellout, most of the Indian and mixed-race

int session did not sound concil-"Whether you like it or not, we are going to have black majority rule in this country," Peter Mopp

The government presented its ing white seats, and it excluded of the mixed-race National Demo-amendments as a bold new step in a South Africa's black majority alto-cratic Party told Parhament. "You can make all the laws, you can erect all the jails you want, but you can never take the freedom out of the individual."

Charlie Green, another Labor Party legislator, reacted to a National Party heckler by remonstrating that "he must go and examine his roots," a reminder that more than a few white South Africans have a black forebear tucked

among their ancestors. It was probably the first time that many of the white legislators had been made to sit as a captive audience and listen to "people of color," as Peter Hendrickse called them, bare their inner feelings. Some of the whites took the candor for ingratitude.

Thomas Langley, a member of Parliament from the rightist Conservative Party, complained of what he called "unworthy parliamentary language, unworthy par-liamentary behavior."

Yet some other white legislators

legislators who rose to address the Albert E. Nothnagel, a maverick in the National Party, rose in the House of Assembly to say in Afrikaans, "If I was a brown man, I would reject the Group Areas Act with my heart and soul,"

"What I like about golf is the warm up?"

Alec Issigonis, Designer of Mini Car, Dies at 81

LONDON - Sir Alec Issigonis, 81, designer of the box-like Mini car that brought economical motoring to millions of Britons, died Sunday at his home in Edgbaston, the London Times reported Tuesday. No cause of death was announced. He had been suffering

from Parkinson's disease. Minor, which was produced from 1948 to 1971. He retired in 1971 but worked as a consultant to the Rover Group until a year ago. Since they were introduced in

1959, more than five million Minis have been produced. The first Mini was 10 feet (3 meters) long, weighed about 1,300 pounds (590 kilograms) and sold for £496, less than \$1,500 at the time.

With a transverse engine powering the front wheels, the Mini was a radical shift in design. Its appearance has never greatly changed.

Ramon Durano, 82,

Ex-Philippine Politician CEBU CITY, Philippines (AP)

Ramon Durano, 82, a former congressman and business leader,

Mr. Durano virtually owned Danao, a city of 60,000 people north of Cebu. Many Danao resi-dents were born in Mr. Durano's hospital, worked in his factories, retired to his home for the elderly and were buried in his cemetery.

Born to a prosperous Cebu family, he was elected as a representatives from Cebu in 1949 and served Sir Alec also designed the Morris until the legislature was abolished in 1972. In January, Mr. Durano was elected mayor of Danao, defeating his son Thaddaeus.

> Sergei A. Losev, 61 General Director of Tass

MOSCOW (AP) - Sergei Losev, 61, general director of the official viet press agency Tass, died Monday, the agency announced Tuesday. It did not give a cause of

Mr. Losev had been in charge of the agency since 1979. He joined Tass in 1950 and worked as a correspondent and bureau chief in the United States and Israel.

Mr. Losev was a member of the Central Auditing Commission and the Supreme Soviet, and a delegate to the last two Communist Party congresses and the party conferdied of cancer Monday, his family

By Nora Boustany Washington Post Service

DAMASCUS -- Mithileshwar Singh, released by his captors after 20 months in confinement with three American hostages, was flown aboard a U.S. military aircraft to West Germany Tuesday on his way to the United States. Damascus airport officials said.

The Indian-born U.S. resident left the Syrian capital alone in late evening, leaving behind his wife, Lala Mani, who had driven from Beirut for a reunion after their long separation, an Indian diplomat

He is expected to undergo a medical checkup at a U.S. military hospital in Wiesbaden before traveling to the United States.

Mr. Singh, a university professor who holds resident alien status in the United States, was freed in Beirut late Monday and escorted by Syrian intelligence officials across the Bekaa valley and into Syria. He was handed over to U.S. and Indi-

an diplomats by Syrian officials.

Three American educators kidnapped with Mr. Singh on January 24, 1987, and with whom he stayed throughout his ordeal, are still de-

Mr. Singh, looking drawn and underweight, declined to comment on the conditions or whereabouts of his three colleagues but said that while a hostage his "treatment was better" than he had expected.

But there is no substitute for freedom in the world," he said. Mr. Singh struggled to maintain an air of dignity but his voice be-trayed his hardships in confinement. He is a diabetic and has to be

treated for high blood pressure. Please, please, respect my freedom now; let me be quiet, let me be silent," Mr. Singh pleaded. "I cannot say anything that

might go against one of the people who are still under detention. The academic said he did not know where he had been held or why he was the first one to be

Talks Sought on East Timor

UNITED NATIONS, New York - Portugal's foreign minister, Joào de Deus Pinheiro, said Tnesday that his country was preparing to send a delegation to East Timor to discuss the fate of its former colony. Indonesia has said that in absorbing the territory it had the support of the East Timor people and no further act of selfdetermination was necessary.

ler murt de Cartier

released. Mr. Singh said he was unaware of any American hostages other than the three Beirut University educators he had stayed with.

He explained: "I have been living with three friends of mine, three colleagues of mine, that's all. I haven't seen anybody else. Mr. Robert Polhill, Dr. Jesse Turner and Alann Steen. So we four were put together and we lived together all these 20 months."

"It is better for me not to make any statement on that at all, because we don't know what might hurt them," he added, hinting that the other three were not out of The U.S. ambassador in Damas-

cus, Edward P. Djerejian, who of-fered his credentials to President Hafez Assad of Syria over the weekend, thanked the government of Syria "for its important role in the release of Mr. Singh."
Mr. Djerejian pledged that ef-

forts would continue for the release of remaining hostages. There are nine Americans still missing in Lebanon. At least six of them are believed held by pro-Iranian fundamentalist groups operating in Beirut and central Lebanon.

"For too long, the hostages, those innocent persons, have been pawns in an inhuman and cruel political game of terrorism," the ambassador said, while standing on the steps of the Syrian Foreign Ministry, in his first major public statement since he assumed his

At the ceremony, the Syrian state minister for foreign affairs, Nasser Qaddour, said Syria would pursue its efforts to assist in the liberation of all kidnap victims and "rejoice whenever such efforts are crowned

Five color photos released with communiqués issued by the Islamic Jihad in recent weeks showed the four captives in dark blue sweaters and jeans, drinking tea and wrapped in blankets, suggesting they were in a cool place far from

he sweltering heat of Beirut. Shiite sources in Beirut said recently that the group holding the four professors was acting independently from Iran and had sought to deal directly with the United States

or through Syrian intermediaries. The string of communiques by the underground organization had prodded the United States for positive action regarding the rights of Palestinian people. It is not clear whether the group is specifically linked to the PLO or any other gnerrilla faction or whether it was using the Palestinian cause and uprising as a cover for its real identity.

Torrent in Southern France Kills at Least 10 in Nimes

Cars swept by floodwaters after a freak rainstorm blocked a street Tuesday in Nimes, a southern French city of 130,000 people noted for its Roman amphitheater. At least 10 persons were killed, and rescue workers said that they

expected to find more bodies. French radio said five persons drowned in mud after 20 centimeters of rain fell in three hours on Monday. Another person was killed in a gas explosion. No details were available on the other victims.

Reagan Cautious on Hostages

WASHINGTON - President Ronald Reagan ruled out again on Tuesday any negotiations with the captors of nine American hostages and said liberating them remains a "great problem" despite the release of an Indian captive.

The White House tempered expressions of pleasure at the release of the Indian in Beirut with "the knowledge that nine innocent Americans are among those still held hostage in Lebanon." Mithileshwar Singh, a Beirut

University professor who is a legal resident of the United States, was turned over to the U.S. ambassador to Syria in Damascus on Tuesday. Mr. Reagan, in an exchange with reporters, did not explain how Mr. Singh's freedom was obtained. But

Myerson Melodrama Obsesses New York

By Howard Kurtz

Washington Past Service NEW YORK — Even by the standards of a city fixated on soap operas of the rich and famous, New Yorkers have been feasing on the Bess Myerson saga with a special fascination bordering on glee. Her rise was so stunning for so

long — from a Bronx housing projact to Miss America of 1945, from television star to top city official and confidente of Mayor Edward l. Koch — that her equally spectacular fall is being gossiped about, dissected and photographed from

every conceivable angle.

Miss Myerson's trial, which began Tuesday, is the stuff of which pulp fiction is made. She is charged with fixing her companion's diworce case by giving a city job to the emotionally disturbed daughter of the presiding judge.

From the moment the first po-

tential jurors were questioned, Miss Myerson has been pursued relentlessly.

Here she is, descending the stairs

to the Lexington Avenue subway on her way to court, trailed by popping flashbulbs. There she is, kissing her jailed companion, Carl A. Capasso, the second player in the love triangle that led to Miss Myerson's six-count federal indictment. There she is again in the dark sunglasses, emerging from a limou-sine and greeting onlookers outside the courthouse.

Why this obsession? "For a long time Bess Myerson was a woman who could do no wrong and who sort of symbolized New York City success," said City Councilwoman Ruth Messinger.

deal of question about how high Jews could rise, there was Bess Myerson as proof you could get to the top. She achieved a kind of permanent fame. She became a quasi-mythic character. Then it begms to crumble.

"That stirs the juices of people who said, I always knew she couldn't be that perfect."

Miss Myerson, who has strongly protested her innocence, faces up to 30 years in prison on charges of obstruction of justice, mail fraud, conspiracy and bribery-related charges. She was forced to resign as Mayor Koch's cultural affairs com-

Estonia Hums as Cadres Of Political Reformers **Gather and Fulminate**

By Michael Dobbs

Washington Post Service
TALLINN, U.S.S.R. — Representatives of grass-roots political groups from around the Soviet Union have met here in the capital of Estonia and denounced what they described as attempts by the Communist authorities to prevent them from organizing freely, gain-ing access to the mass media and participating in elections.

Complaints of official harassment and even of persecution were aired at the meeting Monday, which was attended by members of about 50 informal political organizations from areas of the Soviet Union as diverse as the Ukraine to the Soviet Far East.

The gathering followed a week-end congress of the Estonian Popular Front, a mass movement that adopted a platform of radical reform calling for, among other things, free elections, property guarantees and an end to compul sory military service.

In contrast to Estonia, where the Popular Front has emerged as a powerful, legally recognized body, similar movements in other Soviet republics have experienced great difficulty organizing and acquiring legal status. Legal registration is essential for any group that wants to present candidates for elections scheduled for next spring to newly constituted national and provincial

Many participants at the meeting condemned what they described as "an information blockade" imposed by the central Soviet media on news of the political developments in Estonia. Newspapers in other Soviet republics have carried only sparse references to the Estonian Popular Front, which has demonstrated its mass support with meetings attended by as many as 300,000 people.

"A decision must have been taken at a very high level not to provide information about what was happening in Estonia," Rem Blum, a professor at Tartn University and

Ulster Car Bomb Kills Jailer

BELFAST — A prison officer was killed Tuesday when a bomb went off while he was sitting in his car in a residential area of east Belfast, the police said.

a founder of the Estonian Popular Front, told the gathering Monday.

Blum and other speakers said they hoped a major realignment in the Kremlin leadership last weekend would result in a more tolerant attitude toward informal political

groups.

Informal political organizations began appearing in Moscow and Leningrad last year in support of Mikhail S. Gorbachev's program of perestroika, or restructuring of So-viet society. Initially made up in most cases of no more than a half dozen people, they gradually grew by forming alliances with other groups and by attracting new supporters through rallies and demon-

The meeting here Monday provided a unique opportunity for members of groups scattered across the Soviet Union to exchange information, and when not listening to speeches, they swapped address-es, circulated crudely produced leaflets and signed petitions.

The Moscow-based Democratic Perestroika Movement collected signatures on one petition denouncing a July government decree that imposes severe restrictions on the holding of meetings and demonstrations. Local authorities in many parts of the country have used the decree, which was rushed through the Supreme Soviet, or national legislature, without public debate, as a pretext for declaring illegal all but the most innocuous public gatherings.

The petition, which described provisions of the decree as a viola-tion of the Soviet constitution, has already been signed by about 500 leading intellectuals, including the Nobel Peace laureate, Andrei D.

Estonia is the only Soviet republic in which the authorities have not made any use of their powers under the July decree. Street demonstrations have become a daily occurrence and have been used by the Popular Front and other informal groups to win release of political prisoners and force repeal of unpopular government decisions.

At the opposite end of the spectrum of official tolerance are Soviet towns such as Kubishev in central Russia where members of informal groups are routinely refused permission to hold meetings or distribute leaflets.

U.S. and Soviet Veterans Share the Pain of Unpopular Wars

By Esther B. Fein New York Times Service
MOSCOW — The table was

covered with food and drink, and the men were sitting around it, talking of their soldier days. Silverware clattered and glasses tapped in fraternity, until one of the men recalled how earle the nights were. And in the sudden

silence, they all remembered. "It was so quiet then," Shad Meshad said. "It felt like the war had stopped." "Only you knew it hadn't real-

ly," Grigori Shtirlin said.
"Exactly," Mr. Meshad said.
"And you kept wondering when it would all start up again."
Theirs were wars fought in different decades, in different countries. Mr. Meshad's fearful nights were in the jungles of Vietnam, 18

years ago; Mr. Shtirlin's were in

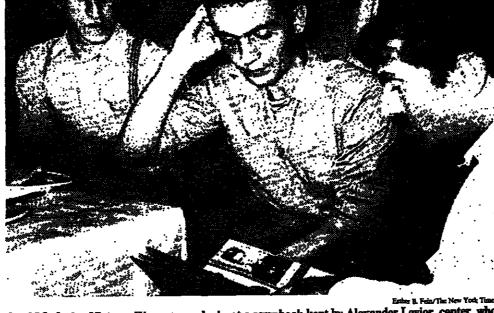

the mountains of Afghanistan, from which he returned last De-The two men met last week in Moscow, when a group of eight Vietnam veterans came to the Soviet Union to speak for the first time with Soviet veterans of Alzhanistan and to share with them

their experiences about dealing

with the physical and emotional

wounds of an unpopular war. "Our wars were different, but our stories, they are the same," said Igor Yepufanov, a 23-yearold student at Moscow State University who came back from Afanistan in 1985. "I have friends have never spoken to like this. But these guys, they are like my brothers. They know."

The wars in Vietnam and Afghanistan are not comparable on many levels, veterans from both

The veterans told stories of escaping in alcohol and drugs. At times, their comments and reac-tions were so alike, only language distinguished who was speaking of Vietnam and who of Afgham-

"Every one of us there tried drugs," Mr. Kalandarishvili said. "Every other one was an occasional user and every 10th was a regu-

"Many of our guys became al-coholics and addicts," said Mr. Meshad, who is executive director of the Vietnam Veterans Aid Foundation, a nonprofit organization in California. "And man); of our casualties were after the war, when vets couldn't cope and took their own lives. We don't want to see that happen to you."

It was not lost on any of these men that they might have been fighting against each other if the wars they had been in had spread.

But somewhere in surviving, in enduring the pain of rejection and rehabilitation, the veterans found a common ground in these wars that their governments could not.

"During the war, I drove over an American-made mine, and spent half a month in the hospital," Alexander Lavior said. "My friends were killed by American, weapons, and for a long time I was very angry at all Americans. When I got back, away from the war itself, I realized our Soviet guns killed people, too. They probably killed some of your friends in Vietnam."

Expert Panel Recommends Transplant of Genes to Humans

By Warren E. Leary New York Times Service

WASHINGTON - An influential advisory committee has recommended that the U.S. government for the first time approve the transplanting of foreign genes into hu-

In the proposed experiment, a major step toward trying long-an-ticipated gene therapy, scientists at the National Institutes of Health would genetically alter patients' blood cells in an effort to gauge the effectiveness of a cancer treatment.

BUSINESS

The doctors would not try to placing a defective or missing gene that brings on an inherited disease.

> > **OPPORTUNITIES**

The experiment is the first in-bacterial gene responsible for neo-rolving gene transplants to humans mycin antibiotic resistance and put volving gene transplants to humans to be approved by the advisory committee, which was formed in the 1970s to guard against hazards in genetic research. Similar transits were attempted twice before, in 1970 and in 1980.

The latest proposal involves transplanting a bacterial gene into a type of white blood cell that attacks tumors. Scientists will try to follow the effectiveness and life cycles of the anti-cancer cells. The researchers want to take a against the cancer.

it into a virus. The virus has been stripped of its ability to be infections but it can carry and activate the gene. This virus and its new gene, in turn, would be put into white blood cells called tumor infiltrating lymphocytes.

The foreign gene is not intended to have any effect on the patient's cancer. Instead, it would simply serve as a marker to help the doctors track which cells are active

The NIH advisory committee, which includes scientists and ethical specialists, recommended that the experiment be tried on no more than 10 patient volunteers, which Dr. Rosenberg said should be enough to demonstrate the techniques and safety of the procedure.

Several thousand diseases are caused by one or more defective or missing genes of the 50,000 to 100,000 genes in each human cell. The diseases include Duchenne's muscular dystrophy, cystic fibrosis and blood disorders.

Mint: In Car

MILAN — This is getting to be a good Italian fashion season not because there is one strong message, but because everybody has something to say.

The major designers all favor pants, they are drifting toward a longer skirt, and al-

MILAN FASHION

though they all believe in color, they mix

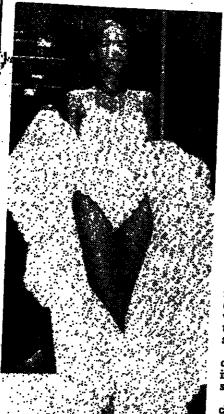

different palettes.

different palettes.

Karl Lagerfeld for Fendi was in a tender imood, which he expressed in sweet faded shades of lilac, wistania, laurel green and straw beige. The story line also seemed to be a memory of summers and gardens past

But this was a collection to give nostalgia a good name. It started with brisk navy knits elongated cardigans over striped bathing-belle shorts. With white knee socks and ankle-strap pumps, they looked junior, but charming. The real beachwear, which came later was snow white stretchy scalloped at later, was snow white, stretchy, scalloped at all the edges and delicious.

Lagerfeld said he was inspired by the arty,

Fancy light cape from Fendi.

bohemian world of the painter Vanessa Bell. Artists' smocks in fresh linen looked adorable over crisp shorts, which also came in a more sophisticated dark silk print with a tailored linen jacket

Long was the message for skirts, and grace-ful dresses, which were universally in linen and had a rustic feel without being at all peasant-style. Shoes were flat, which looked

Pantsuits inspired by the same prewar period were in straw-colored linea, with overlays of white guipure lace, as though a comfield were stippled with flowers. In the same mood was an impression of meadow flowers on a

For Fendi, the summer season is always more difficult than winter furs. But this was a fresh, pleasing collection, even if Lagerfeld's good friend Anna Piaggi (in easy-care black Chanel banded with vinyl) judged it as "a lot

Krizia also tried a little tenderness. Shell pink and toffee beige were favored colors in this sweet-toothed collection, where all the this sweet-toothed collection, where all the lines were soft, the fabrics fluid, hemlines long and the effect ravishingly pretty. By the time that Manuccia Mandelli, the Krizia designer, walked out on the runway with her two grandchildren, she received a deserved

The Krizia woman, who has often in the past had a hard edge, was softened up with gentle wide-leg pants and high waist skirts that were either skinny or rippling out as they lapped the cards. There were no short skirts, but places and short skirts, but plenty of shorts and pants.

Shoulders were rounded, jackets cut on the

curve and the flat shoes that were worn throughout even for evening gave a feel of summer. So did the swimsums banding the body in sea blue and black, and the short-and-sweet cream cable knits topping flared shorts in capprocine silk. shorts in cappuccino silk

Halter tops layered over T-shirts and tieback pinafores were complicated. But sundresses with sweeping skirts below a strapless top were refreshing.

Laura Biagiotti's trip to China, screened as a stylish travelogue over Milan's fashion weekend, was relived on the runway. The First Empress of Cashmere flew in a dozen models from Beijing and dressed them lacquer red, Ming yellow and Mao blue. Clothes were on the Eastern side too, with loose numics over narrow pants and colorful dragon and fish motifs on black swimsuits.

The elongated lines of Gianfranco Ferre's collection and its salty navy and white coloring looked a little austere. Yet he does the sculpted style very well.

Paradoxically, it was Ferre's evening clothes, not usually a strength with this designer, which looked modern and elegant: slim draped inky crepe or short midnight blue satin, lit up with gold jewelry or spangled with sequined chiffon. Even regular straight pants topped with a meringue of bloused white organdy looked fresh.

There seemed to be too many straight lines in the daytime clothes, which took the sea as their theme and included bold scarf prints of knotted cream ropes on a navy ground. Wide deck-chair stripes in red or blue on white accentuated the naval theme and came in billows of fabric that tied in to the body.

Ferré opened the show with tailoring cut close-in, mostly pantsuits in the inevitable navy blue starred with big gilt buttons. A trapeze-line top swinging over a short skinny skirt came in stiff white piqué. Also on the body line was a dress of elegant naughtiness which looked as though it was made up of silken rush matting and showed glimpses of flesh. Less subtle was black leather with giant gilded eyelets punched out down the spine.

There was a whiff of a different feeling in the longer skirts in chiffon and voile, in the soft sarong wraps and an interesting high-waisted crepe pinafore that suddely blew in

The swimsuits, every one in navy blue, were Ferre at his best, cut on clean lines with great precision, but in tactile fabrics that included stretch velour and a fine fishing net mesh trapped under an overlay of chiffon.

The Hawaian sunset colors for evening were also very fine and included deep blush pink and coral shot-silk blouses warming up a severely tailored jacket.

The Showman Of São Paulo

By Alan Riding
New York Times Service

C AO PAULO — Whether Gerald Thomas's principal objec-tive when he returned here from New York four years ago was to introduce a new genre of theater, to upset the local cultural establishment or simply to gain fame, the Anglo-Brazilian stage director can fairly claim — and frequently does — to have achieved all three.

"The ego side has been more than satisfied," he said, peering through Brechtian spectacles as if confessing to the sin of pride. "I have become a presence in Brazil's cultural life. People are already talking about the pre-Thomas and the post-Thomas cras of Brazilian

Indeed, by exciting some, angering others and stirring jealousy among more, the 34-year-old director has in a short time emerged as the most polemical figure on the Brazilian theatrical scene, polarizing public, critics, actors and directors with his provocative views and avani-garde work.

Thomas is, for a start, a master of publicity, with interviews, reviews spotlight. and round tables about his pieces — and opinions — frequently oc-cupying pages of the cultural supplements of newspapers. But he is also, at least for Brazil, a daring innovator of form and content, inspired by what he describes as the "subversion" by the likes of the gnese) or as an Englishman (he American director Robert Wilson, spent his late teens and early 20s in and the East German playwright Heiner Möller.

So far, he has used works by Beckett. Wagner, Mérimée and Kafka as vehicles for his productions, but he is moving toward creations that he calls "dry opera," characterized by a cinematographic use of lights and blackouts, prerecorded music, almost choreographic acting and a sort of antilanguage that he describes as "verbal hemorrhage."
He is taking three pieces to New

York for performances at La Mama. "The Process," "Praga" and "Carmen Com Filtro" are Thomas creations within borrowed frameworks. "The Process," the most critically praised of the three. follows the story line of Kafka's "Trial" and uses music from Wagner's opera, "Parsifal" "Praga" (which in Portuguese means both Prague and plague), with music by Shostakovich, is evocative of Kafka but not based on a text, and "Carmen Com Filtro" ("Carmen With Filtertips"), with an original score

Although Thomas directed 18 plays by Beckett at La Mama between 1979 and 1984, he says he is nervous about the reaction to his new pieces. "New York looks like a very open-minded place, but it is in fact very narrow-minded," he explained. "The most interesting things happening in New York are brought from Germany. The most interesting things happening in New York are

ond half of the 20th century is Bob Wilson, and he can hardly work in the United States." Certainly, Brazil still seems un-

eras." Young people have emfury of his critics has helped draw the world of drama into the public

At times, though, it seems that his critics are reacting more to the man than his works. When he speaks scathingly of the theater in Brazil, for example, they ask: Is he doing so as a Brazilian (he was born in São Panlo and is fluent in Portuspent his late teens and early 20s in London and he sounds English) or as neither (his father was a German

important theater artist of the sec-

sure what to make of Thomas. In a sense, Brazilian theater was ripe for the shakeup he provided; in the 1970s it was suffocated by the censorship of a military dictatorship and in the 1980s swamped by com-mercial productions that Thomas dismisses as "soaps without cambraced his works and even turned him into a cult figure, while the

Communist who fled Hitler and his mother was a Welsh psychoanalyst

"Puns are my real interest," says the director Gerald Thomas of Lithuanian Jewish extraction). tural establishment is learning to Thomas enjoys the controversy. In the program for his Kafka trilogy in São Paulo, he printed a page of quotes from his harshest critics.

One called him to false Facility.

On quotes from its narsness critics.

One called him "a false Englishman who is inventing vanguard theater of the 1960s." Another depresent "The Process" in January but this time as a "wel opera" with a full orchestra, choir and soloists. scribed him as "interesting as a person but profoundly ridiculous "They know they will sell out," Thomas suggested optimistically, in what he says." A third said "he was a precocious boy who went senile at the age of 30."

What seems clearer is that, while under contract to take "The Pro-cess," "Praga" and "Carmen Com At times, some critics argue, Thomas almost trips over the myriyear, Thomas has won a place for himself in Brazil. As it was put recently by Octavio Frias Filho, publisher of the daily Folha de São through his works. "Puns are my real interest," he explained, "visual philosophical, musical puns that subvert meaning. It's good for any artist to machine-gun conditioned values." animated presence on the mori-bund stage of the Brazilian theater One sign that the Brazilian cul-

ry of acute embarrassment at the bailet, much better when Neil Simon adapted it as part of "The Good Doctor" on Broadway a few years ago and brought out the full career implications of the unfortu-nate nasal eruption. The bestknown of the one-act plays, "The Bear" and "The Proposal," seem more than a little tred. But the evening survives thanks to the more than a little treed. But the evening survives thanks to the manic intensity of Atkinson, one of edy of post-manital life timessily

Rowan Atkinson, Timothy West and Cheryi Campbell to perform. Holmes" at Wyndham's turns out What separated Chekhov as a to be no secret at all: A 90-minute wicke, as Holmes and Watson in a current television series.

In the first half of this aimless will be bored to death, and so never see his wife and children again, as a result of a rival playwright's determined that he is a little conversation piece we get a brief recap and revision of the orthodox Holmes doctrines and ran-

mination to read her masterpiece to dom memories of previous cases, at the last to come up with the might.

delivered in such shorthand as to authentic voice of its own rage at a One of two of the sketches work be largely incomprehensible to less well. "The Sneeze" itself, a stonal books in their turgid entirety.

* Dining Out-

The result is a kind of footnote to Holmes research, a literary concert of breathtaking aimlessness that might just have worked for half an hour on a dull television night but is a disgrace at West End prices.

GENZA

world where the only crime greater

than marriage is divorce.

Expertly played by Simon Cadell and Lisa Harrow as the entire cast. it consists largely of brittle, tough sketches from a dead relationship that both partners are for obscure reasons occasionally urged to kickstart back into a kind of afterlife.

"Double Act" is a fragmented and ultimately rather inconclusive report from the alimony battleevening survives thanks to the manic intensity of Atkinson, one of the great natural farceurs of the West End, and to the evocative "Private Lives" to "Who's Afraid settings of Mark Thompson; the settings of Mark Thompson; the of Virginia Woolf?" and able only production has a kind of agility.

RAFFATIN & HONORINE

Starting on November 19th, 1988 and continuing upon continuing until May 13th 1989, you are given fantastic chances of winning big in the 84th South German Class Lottery.

With the largest amount of prize capital - i. e. 405,610,000 DM, the South German Class Lottery gives away the biggest top prizes compared with any other German lottery. No other one offers jackpots of 3 million DM. The SKL is sponsored by the Federal States of Baden-Württemberg, Bavaria, Hesse and the Rhineland-Palatinate and is controlled by an official board of directors in Munich/Bavaria.

Our new offer gives you during the 26 draws TWO CHANCES OF WINNING THREE MILLION DM, FOUR CHANCES OF BECOMING A DOUBLE-MILLION-AIRE, 14 PRIZES OF 1 MILLION DM, 4×500,000 DM, 26×250,000 DM, 32×100,000 DM plus 437,506 prizes ranging up to 80,000 DM

HOW THE LOTTERY WORKS The 84th South German Class Lottery extends over a six month period - from November 19th, 1988 to May 13th, 1989. It is divided into six classes. The 1st to 5th class have a total of 20 draws - i. e. 4 draws per class - and 6 in the 8th class. This means a draw every Saturday for six exciting months! The draws are held in public

and are state controlled, which assures that all

prizes are given to the rightful winners. The basis of the lottery is the Prize Schedule, which shows all the prizes and dates of the draws. WHAT THE ODDS ARE WHAT THE ODDS ARE

With a total of 900,000 ticket numbers issued and an outstanding offer of 437,588 prizes, nearly every second number is lucky – I. e. exactly 48.6%. However, by participating with a Special-Six-Pack you can boost your chances of winning at least one prize by 98%. and of winning further prizes by 87%. Value and number of prizes increase with each class. The

percentage of stakes given away as prizes in the SKL is higher than in any other German lottery. ANYONE CAN PLAY

The South German Class Lottery is open to anyone of any citizenship in any land. Should you move to another country, you can still continue to play wherever you live providing there is a postal

Tickets are available in full, half or smaller shares. They all take part in the draws and have equal winning chances. Of course only full tickets will get 100% of the prize money, whereas the smaller shares, which cost their respective stake price, are only entitled to their corresponding portion of the prize money.

it's easy to play in our lottery. Just complete and send in the attached Ticket Order coupon together with your remittance. You will then receive tickets and additional information. We recommend payments to be made by International Bank Draft made out in German Marks payable to Mr. W. Wessel through a German Bank, which is usually free of charge. Should payment be made by International Bank Transfer, personal cheque in foreign currencies or by Credit Card, charges must be included.

JACKPOTS OF 3 MILLION DM PLAY THE BIGGEST LOTTERY IN THE WORLD!

GOLDEN OPPORTUNITIES 2×3 Million DM = 6,000,000 DM

 4×2 Million DM = 8,000,000 DM 14×1 Million DM = 14,000,000 DM $4 \times \frac{1}{2}$ Million DM = 2,000,000 DM

 $26 \times 250,000 \,\mathrm{DM} = 6,500,000 \,\mathrm{DM}$ $32 \times 100,000 \, \text{DM} = 3,200,000 \, \text{DM}$ $30 \times 80,000 \, \text{DM} = 2,400,000 \, \text{DM}$

 $42 \times 50,000 \, \text{DM} = 2,100,000 \, \text{DM}$ $60 \times 40,000 \, \text{DM} = 2,400,000 \, \text{DM}$ 84 × 25,000 DM = 2,100,000 DM $540 \times 10,000 \, \text{DM} = 5,400,000 \, \text{DM}$

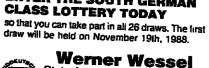

34 × 60,000 DM = 2,040,000 DM 436.716 prizes under 10,000 DM = 349,470,000 DM

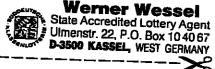

WHAT HAPPENS WHEN YOU WIN All winners are notified immediately and confiden-

tially of their prizes. All prizes are paid at once in full and free from German taxes. We can make payment in any currency you choose and to any address or person you desire. Every-

thing is strictly confidential. Participants will be air-mailed every four weeks the official winning lists along with the renewal tickets for the next class.

Tables include the nationwide prices up to the closing on Wall Street and do not reflect late trades elsewhen N.Y. Stocks End Slightly Lower

NEW YORK — Prices closed slightly lower Tuesday in active trading on the New York Stock Exchange, as the market exhibited little conviction in either direction. The Dow Jones industrial average, which fell

7.65 points Monday, slipped 3.20 to close at Declines led advances by more than a 7-6

margin. Big Board volume totaled 157.76 million shares, up from 130.38 million traded Mon-

Prices traded narrowly mixed for most of the session, with the blue chips enjoying modest gains until that sector pulled back in the final

gains until that sector putied back in the imal hour.

"The market is showing great concern over Friday's unemployment number," said Ralph Bloch, chief market analyst at Raymond, James & Associates in St. Petersburg, Florida, referring to the U.S. figures for September.

In recent months, analysts believe the unemployment of the months, analysts believe the unemployment.

ployment number has become the most influential report in the setting of Federal Reserve Board policy. The near-term course of interest rates could well depend on the Friday data_ Broad-market indexes also lost ground. The New York Stock Exchange index fell 0.30 to 152.93. Standard & Poor's 500-stock index fell

0.76 to 270.62. The price of an average share lost Mr. Bloch said the market remained stable despite three key worries: the upcoming unem-ployment report, the decision by a major bro-kerage to reduce the stock exposure in its model portfolio and the weakness in technology issues. "The decision by Salomon Brothers on Mon-

Thompson Drives Away With Ford Down Under

By GERALDINE FABRIKANT

New York Times Service EW YORK - Ford Motor Co. has called on J. Walter Thompson Worldwide to take on additional advertising for New Zealand and Anstralia. The budget is an estimated \$25 million. As a result, the agency said, its worldwide Ford advertising now involves 15 countries with a

"Over the past year and a half, we have been pretty much consolidating our vehicle advertising, as opposed to corporate advertising; that is staying put at Wells, Rich, Greene in Detroit," said Douglas T. McClure, executive director of marketing at Ford.

In Angust Thompson uses asserted the Trimon account In August, Thompson was awarded the Taiwan account.

Ford counts on Ogilvy & Mather to handle its European advertising, except for West Germany and Finland, which are handled by Young & Rubicam Worldwide. Y&R is also responsible for Lincoln Mercury in the United States and Ford business in Canada. In deciding on the New

consolidating vehicle advertising over the past year and a half.

Ford has been

Zealand and Australia accounts, Ford reviewed the work of Thompson; the incumbent, DDB Needham Worldwide; and Ogilvy & Mather. Young & Rubicam has a conflicting Mitsubishi

"Japan knows nothing about Europe," Yves de Pimodan, a spokesman for Dentsu Inc., said in Brussels on Tuesday. "The concept of Europe simply doesn't exist in Japan."

Dentsu, a leading Japanese ad firm, announced a \$222.64 million project to promote awareness of the continent. The agency is concerned that Japan might lose out at the scheduled 1992 abolition of frontiers among members of the European Community. In a symbolic gesture, the budget for the project was given as 200 million European currency units. The Ecn is a notional

currency. It is based on a basket of currencies of EC members. Deatsu said the lynchpin of its project would be 1991, which Japan has designated "Europe Year," designed to publicize new European products in Japan through a system of fairs and displays. Cultural, scientific and business exchanges would start soon and run until 1992, it said.

VER THE WEEKEND, Thomas Pollock, chairman of MCA Motion Picture Group, received some good news.
The new release by MCA's Universal Pictures, "Gorillas in the Mist," which was in its second week, was doing very well.

The film — based on the life of Dian Fossey, who studied gorillas and was murdered in Africa.—is difficult to market, Mr. Pollock said, in part because Sigourney Weaver is not a major movie star and the plot is not "high concept." That is Hollywood shorthand for a film that can easily be described in one sentence.

I in insertable initial research should that the film's greatest

Universal's initial research showed that the film's greatest appeal would be for women older than 25. But to make sure the commercials appealed to a wide audience, the studio created a variety of different ads. "We promoted different elements of the film," Mr. Pollock said.

The story involves Ms. Fossey's work in Africa, as well as her romance with a married photographer. With women older than 25 in mind, "we did a spot for the daytime scap operas," Mr. Pollock said. It played off the notion of a woman choosing between career and a married man who gets a divorce in order to marry her.

The studio also created a more action-oriented commercial to reflect the exotic nature of the movie. It was shown on morning

Universal also prepared a one-minute commercial that ran nationally on the opening night of the Olympic Games. "That spot emphasized all action elements of the film," Mr. Pollock said, adding that he thought the ad was crucial to the film's

Revlon Restoring Erstwhile Magic

The Focus Switches Back From Health Care to Beauty

By Linda Wells

New York Times Service NEW YORK — A woman strides into a department store and makes her way to the cos-metics area. She dodges a man in a dinner jacket spraying perfume

She passes a salesman in a lab coat clutching a jar of cream, and another waving a compact of multicolored eyeshadows. Never mind the ladylike clouds of pink powder and floral fragrance—this troman has entered a market of the company of the compa this woman has entered a war

zone.

Revion has its amountain neatly lined up: There is the lip-stick with microscopic sponges that release pigment and moisture whenever a woman purses her lips; the dainty perfume with the ominous name, Trouble; the clear mascara; the powdered lip-stick; the 464 shades of nail lac-

These products come pack-aged under Revion's own label as well as a host of other brands -Max Factor, Germaine Monteil, Charles of the Ritz, Halston and Bill Blass, to name a few.

Behind this array is Ronald O. Perelman, the cigar-smoking financial wizard who acquired Reviou Inc. for \$1.9 billion in a better 1985 battle. The company Mr. Pereiman bought was far stronger in legend than in reality: Its beauty division was formdering and the company seemed more inclined to shrink from competition than rise to it.

It had lost market share in the fiercely competitive \$9 billion cosmetics industry. Its advertising was considered unmemorable, and its packaging was viewed as unimpressive. And the company's relationship with retailers was, to put it politely,

Yet in the past two years, Mr. Perelman has begun to bring back the magic that once made Revion the leading cosmetics company in the world. He has scored several hits with innovative new products, he has masterminded an eye-catching advertis-ing campaign and he has made a string of successful cosmetic ac-quisitions.

While not a cosmetics expert,

Mr. Perelman has put new life in a company that has had its ups and downs since the death of its

Ronald O. Perelman of Revion: "The Revion name is one of the best and most recognized brand names in the world."

founder, Charles Revson, in

"What Perelman has been able to do in two years is incredible," said Allan G. Mottns, an industry consultant. "The beauty image is being restored to Revion. But it's going to take a long time because it took a long time to

Challenges remain. Revion is squaring off against formidable competitors that are run by seasoned veterans of the cosmetics business - Estée Lander and Lancôme in the department stores, Noxell and Maybelline in the mass market.

Revion faces a tough future in solidifying its position in the pre-carious business of selling cosmetics in department stores, rather than through its traditional drugstore and mass market

And it must begin to reorient its product line as the baby boom generation ages and becomes more interested in skin care and wrinkle creams than in tradition-

Mr. Perchann began this stag-gering task with a symbolic ges-ture. On Jan. 2, 1986, two weeks after he moved into the executive suite at Revion, a 30-inch (77centimeter) bust of Charles Revson was dusted off and placed in the reception area down the hall. That bust had been locked in a

closet during the reign of Michel C. Bergerac, a financial man who analysts said was responsible for downplaying Revion's beauty division and steering the company

Grand Stalks Pillsbury With £3.1 Billion Bid

By Warren Getler

LONDON - Grand Metropolitan PLC, the British beverages and food conglomerate, on Tuesday launched a surprise £3.1 billion (\$5.26 billion) hostile bid for Pillsbury Co., the American food and retailing giant that owns the Burger

King chain. Flush with over \$2 billion in cash from the sale Friday of its Inter-Continental Hotels chain to a Japa-nese company, Grand Met said it was offering \$60 a share for Pillsbury's outstanding stock, in the largest takeover offer for a U.S.

company by a British firm.

Pillsbury has faced several difficulties over the past year and has for some time been the subject of

takeover speculation.
While Grand Met's offer was a more than 50 percent premium on Pillsbury's closing stock price Monday of \$39, causing an immediate surge in the stock Tuesday, the trading price did not exceed the bid. This suggested the market saw the bid price as fair. Pillsbury stock rose \$18.50 to close at \$57.50 on the New York Stock Exchange.

Analysts noted that the offer price rates Pillsbury at 21 times historic earnings. Pillsbury said its board will re-

view the offer "at an appropriate time" and urged shareholders to take no action in the meantime.

Allan Sheppard, chairman of Grand Met, said at a news conference that the proposed takeover was aimed at giving the British con-glomerate, currently capitalized at £4 billion, the "critical mass" to become one of the world's "greatest food companies."
A combination of Grand Met

and Pillsbury would have sales of more than \$15 billion, based on reported figures and adjusting for the sale of Inter-Continental.

It would also reorient Grand Met away from its dominant beverages business, whose share of over-all revenue would fall to 32 percent from the current 51 percent, and more toward food, which would rise to 39 percent.

Mr. Sheppard said he was pre-pared to negotiate the price and other elements of the offer.

"This is not a token shot to get Pillsbury's board interested," said a leading industry analyst in London who asked not to be identified. Pilisbury Co.

This is a pre-emptive strike. It's a full bid that has credibility largely because of perceived weakness in Pillsbury management in the Unit-

Ron Littleboy, analyst with Nomura Securities in London, said. "Don't expect a higher bid from Grand Met. It's either take it or leave it. They are paying a full price and they know it."

Ron Morrow, food industry analyst with Smith Barney, Harris Upham & Co. in New York, said the Grand Met bid was an "aggressive" move that stood a good chance of success.

Pillsbury, which has experienced a management shakeup and has been struggling with some of its food-retailing businesses, had sales of \$6.19 billion in the year ended

On Aug. I, Pillsbury named the former General Foods Corp. chairman, Phillip Smith as its chairman, president and chief executive officer, in a management shakeup that followed poor ratings by analysis.

Criticism at the time was focused on inconsistent management of the group's restaurant business, particulariy at Burger King, the world's

second largest fast-food chain after McDonald's Corp.

The British conglomerate said it has substantial experience in food

AT A GLANCE 5,100 pubs and 280 restaurants in Britain provided the group with ample experience to run the Burger

King chain successfully.

Some analysts, however, said they thought Burger King would be difficult to turn around.

Grand Met said its tender offer for the Minneapolis-based food gi-ant is valid only if Pillsbury withdraws its "poison pill" defense vehicle: a contingent, preferred rights plan for Pillsbury shareholders that allows them to purchase Pillsbury stock in the event of a bid at half

the market price. The British company said that it had initiated a civil suit in the Delaware Chancery court that chal-lenges the validity of this defense.

The bid for Pillsbury confirmed speculation in London over the weekend that Grand Met would use the proceeds of its Inter-Continental sale to Saison Group of Japan to help finance a major acquisition in the food and beverage sector. Cadbury Schweppes PLC had been considered the prime can-

Grand Met said Tuesday that the hotel sale would yield a profit of \$900 million.

In addition to the \$2.27 billion in gross proceeds from its hotel disposal, Grand Met said it would finance the acquisition through several other means, including a one-for-seven rights issue of loan stock worth £479 million. Following the announcement, Grand Met stock fell 32 pence to 454 pence on the London Stock Exchange. In addition, Grand Met has lined

up a credit facility of \$3.75 billion from four British clearing banks.

Mr. Sheppard said that a further credit line of more than \$2 billion is being arranged. Some of this debt will be reduced through eventual disposals of Pillsbury businesses. particularly among some of the group's restaurant operations other than Burger King outlets. Pillsbury controls over 5,500 Burger Kings in the United States, some 85 percent

of which, however, are franchised. Grand Met, which acquired the Smirnoff vodka label through its \$1.2 billion purchase of Heublein Inc. last January, from RJR Nabisco Inc., is also engaged in a conmanufacturing and marketing tested battle with Pernod Ric through its British-based Express SA, the big French drinks group acquire Irish Distillers Group. tested battle with Pernod Ricard SA, the big French drinks group, to

KKR Raises Offer for Kroger Reuers
NEW YORK — Kohlberg, Kravis, Roberts & Co. said Tuesday it raised its offer in the battle for Kroger Co. to \$64 a share in cash and ously bid \$4.6 billion for Kroger following a \$4.32 billion bid from Dart Group Corp., controlled by the Haft family of Marland.

The new bid consists of \$50 per share in cash, \$11 per share in principal amount of subordinated debentures, and a continuing equity interest in the company's business with a value of The sweetened bid, which values the giant supermarket chain at about \$5.03 billion, follows the announcement by Kroger last week that it would undertake a \$4.6 billion restructuring program to fend off unwanted suitors. Kohlberg, Kravis, which is a leveraged buy-out firm, previ-

S3 per share.

Kohlberg, Kravis also said that if Kroger wishes to proceed with its restructuring plan, which includes shareholder dividends of \$40 in which includes sharehold; translated of 3-6 in world offer \$13.50 for each Kroger share. That offer would include \$10 per share in cash and \$3.50 per share in principal amount of subordinated debentures.

Kroger said Tuesday it was reviewing the increased acquisition bid.

TORONTO — Markets reacted cautiously on Tuesday to Inco Ltd.'s recapitalization plan, an anti-takeover measure that would pay a total of \$1 billion in a special dividend to shareholders of the Western world's largest nickel miner, analysis said.

Amstrad Buys a Stake

tious on expectations that Inco would fall by more than \$10 a share after the dividend, and because it was seen as unlikely that stockholders would approve the full plan.

Inco stock rose 2.25 Canadian doilars (\$1.85) a share Tuesday in trading on the Toronto Stock Exchange, closing at 37.125 Canadian dollars a day after the mining company announced plans to pay a special cash dividend of \$10 a share and adopted a "poison pill" defense to thwart any unwanted takeover.

LONDON — Amstrad PLC, the compt and electronics group, said it is acquiring percent of Micron Technology Inc. a U.S. m percent of Micron Techn Resters

LONDON — Amstrad PLC, the computer and electronics group, said it is acquiring 9 percent of Micron Technology Inc. a U.S. maker and distributor of semiconductor and memory components, for £45 million (\$76.3 million). Amstrad said that under the agreement, which is subject to U.S. government clearance, it would purchase nearly 3.6 million new Micron shares, or 9 percent of Micron's enlarged share capital, at \$21 a share. Micron, based in Boise, Idaho, already supplies dynamic random Boise, Idaho, already supplies dynamic random

"The feedback we get from major shareholders is that it's unlikely at this stage to be approved in its entirety," said Terence Ortslan, an analyst at Deacon Morgan McEwen Easson access memory chips to Amstrad.

Micron said the agreement with Amstrad includes includes a three-year contract under The poison pill defense, said to be the first ever adopted in Canada, would allow shareholders to buy new Inco stock at half price if an which Amstrad could purchase up to 9.03 percent of its component production. Micron said there would be no reduction in allocations to current customers as a result of the agreement. Earlier Tuesday, Amstrad reported that pre-tax profit in the year ended June 30 rose to £160.41 million from £135.71 million. pay to enable its shareholders to buy stock in the acquiring company at half price.

Sun Co. Shareholders Approve Spin-Off Plan

The Associated Press PHILADELPHIA — Stock-holders of the Sun Co. overwhelmingly approved on Tuesday a major restructuring proposal that spins off the company's \$4.2 billion domestic gas exploration and production into a separate operation and cuts 1,300 jobs.

cuts 1.300 jobs.

The new structure retains the refining and marketing of petroleum.
Under the plan, adopted at a special meeting in King of Prussia, Pennsylvania, shareholders will receive one common share of the new Cure Evaluation & Pondurting Co. Sun Exploration & Production Co. for each common share of Sun Co.

Virgin Group Plans Stock Buy-Back

Poor Stock Performance Hinders Plan for Acquisitions

PLC, the rock music and communications conglomerate, said Tuesday its management will buy back 37 percent of Virgin's shares at 140 pence (\$2.38) a share, the price at which the shares were floated less than two years ago.

The offer is being made through Glowtrack Ltd., representing the founders of Virgin. The offer values the entire company at £248 million, Glowtrack said.

The benefits of a listing, which were expected at the time of the flotation, are not being realized," the statement from Glowtrack said. Virgin's stock was floated in November, 1986, amid a blaze of pub-

Glowtrack said the poor performance of Virgin's shares meant the company could not finance significant growth by acquisition or issue new shares through its listing.

ingustriets.

mar h . moar

lerald. Ent

The chairman of Virgin, Richard Branson, has been concerned that the company's 40,000 small investors have been losing money since the global market collapse last Oc-

Mr. Branson said at a news conference that the buy-out would give him the freedom to pursue expan-sion of his business and to make it one of Britain's top five private concerns in volume.

The buy-out is like the ideal marriage, or the ideal divorce," Mr. Branson said. "I don't know of any ing director who does not want to do the same thing."

The price offered Tuesday was per share of 8.77 pence for the year LONDON — Virgin Group above the stock's closing price Monday of 127 peace a share. Fol-Monday of 127 pence a share. Following the market crash in October, 1987, the stock sank to a low of the Virgin name and to retain virgin name and virgin name and virgin name and virgin name and virgi 83 pence. The stock rose 7 pence gin's three existing divisions: mu-fuesday to 134 pence a share.

A spokesman for Glowtrack property. said: "As a consequence of this Glowtra disappointing performance of Virgin's share price, the founders have considered it to be mappropriate to use Virgin's listed shares to any significant extent for either acquisition purposes or the financing of

Mr. Branson founded Virgin in 1970 as a mail-order record business. He went on to establish the company as one of Britain's top 10 privately-owned businesses.

growth through new issues."

Virgin Records, which has recorded such rock acts as the Sex Pistols, Boy George and Culture Club, is still the core of the empire. But Virgin Group has widened its scope to include holdings in lux-ury tourism, cable television, film production, shops, nightclubs, publishing and a transatiantic air-ine company. The buy-back offer does not include the company's majority-owned Virgin Atlantic

According to British press re-ports, the deal represents the country's biggest management buy-out. It could set a precedent for other concerns, since the shares of many companies remain well below their

Virgin said the buy-out offer is at the end of October and to com-16 times the company's earnings plete the offer in January 1989.

Richard Branson, chairman of Virgin Group, holding a model of a jet earlier this year when his airline, Virgin Atlantic, was granted authority to fly from London to Los Angeles and to New York.

EUROPE'S BUSINESS MAGAZINE

In fact, you could call International Management Europe's only business magazine. Because all the other magazines are written with their home markets in mind; they are American, English or German magazines that circulate 'abroad'.

International Management has no captive home market; uniquely it is written for senior executives all over Europe. It provides a pan-European perspective free from the background noise of national bias.

With 1992 fast approaching that's important; and Europe's leading businessmen know it. International Management gives advertisers the opportunity to talk to, and influence, a concentrated and select audience of senior European Executives. Over * 218,000 men and women spread evenly across Europe who are making the corporate decisions that matter. Successful people with high disposable incomes who take the lead in forming European opinions and views.

International Management is valued and respected by its readership. Independent research confirms it as a major European business magazine. The European Businessman Readership Survey records that International Management is read by more businessmen in Europe than, for example, Newsweek, Fortune, The International Herald Tribune, The Wall Street Journal Europe, or Scientific American.

Its market is Europe and that is where it leads. Rightly. For more information on how you can benefit by advertising in International Management, please contact your local International Management sales office.

cessful product introduction I've

And now Revion is attempting

to lighten the load of women's ever-

bulging tote bags with its Micro-chip blushes and eyeshadow com-

pacts, which are only slightly

Against this backdrop, one new

product from Reviou has struck some industry experts as remark-

ably retrograde. The fragrance, Trouble, began as a notion that women like mischief, adventure

and a level of chance that isn't scary or overtly sexual," said Ar-

thur Cohen, executive vice president and director of advertising at

That may be the notion, but the

message in one Trouble advertise-

ment is scary enough. In it, an un-

shaven man sits at a bar, and, in

another frame, a woman wearing evening clothes and a glittery ban-gle relaxes in a café. It looks like,

"It's the morning after," ex-plained Mr. Cohen. This image is

akin to the daring dangerous sexu-al mood projected most successful-ly by Calvin Klein's Obsession in 1985.

But Calvin Klein's new fragrance, Eternity, and many others launched recently, such as Estée

Lauder's Knowing, are using more tame advertisements. Given the fact that many people are now wary of the casual sex that the photo-

graphs for Trouble imply, Revion

REVLON: Perelman Swings Focus Back From Health Care to Beauty

toward the health care business. Its reappearance was no mere coinci-

days, and especially of Mr. Revson himself, is now invoked by everyone from the highest-ranking executive to the saleswoman at the cosmetics counter.

"From the era of Charles Revson, we were always on the leading edge of creativity and innovation," said Sol Levine, the president of Revion and a 20-year veteran of the

For cosmetics expertise, Mr. Perelman turns to Mr. Levine, while pouring more of his own formidable energy into selecting the adver-tisements and the models who appear in them.

The desk in Mr. Perelman's corner office at Revion is turned away from the wide view of Central Park He strides from his desk, slips off his shoes, curls one foot under him and settles lightly on a chair. De-spite his easy posture, he responds to questions with short, rapid-fire

answers.

He said that when he acquired Revion one of his first objectives was to strengthen and polish the

company name.
"The Revion name is one of the best and most recognized brand names in the world," he said. In fact, it ranks just behind Coca-Cola and Kodak in terms of worldwide recognition, according to company

So far, he and Reviou are looking good. Revion executives estimate that operating profit in the core beauty products business — \$80 million in 1985 — will bit \$225 million this year and \$300 million in two years. Sales are expected to top \$2.5 billion this year, compared with about \$1 billion in 1985.

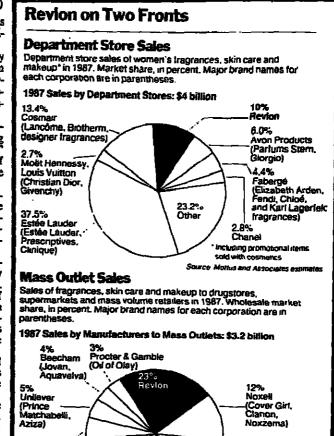

And that comes in an industry where sales have slowed and buying patterns are changing. Sales of cosmetics were once geared toward young women in search of fashionable makeup. Now, the prime consumer is aging and has a whole new set of cosmence needs.

To resuscitate the Revion image, Mr. Perelman launched a glitzy advertising campaign around photo-graphs by Richard Avedon. These feature celebrities or models and a headline proclaiming: "The most unforgettable women in the world wear Revion."

In the cosmetics business, adverising can translate as magic. With the high cost of selling and advertising, profits come by marking up the cost of the product. The customer is fickle, though. A

new fashion, a new ingredient, or a new advertising campaign can lure her away from a product and even a

market share of cosmetics sales in drugstores, supermarkets and mass

Cyanamid

Old Spice,

The advertising is consistent," said Mr. Mottus, the cosmetics industry consultant. "It used to change all the time. They have the launching pad for success."

But repeat sales are what make for a success, and repeat sales occur only when the consumer is satisfied with the substance beneath the wrapping. Mr. Perelman's strategy for a rejuvenated Revion includes improving the quality of the lip-sticks, nail polishes, shampoos and fragrances that make the cash reg-

To do this, he and Mr. Levine increased the size of the research and development staff at the Revlon Research Center in Edison, New Jersey. They also quickened

the pace of product introductions.
"I see signs of new product success, and that's the name of the game," said Diana K. Temple, an analyst at Salomon Brothers Inc. cara, a clear gel that coats each name "The company has to gain market share with new product launches, it ognized as a blockbuster. WE CAME THROUGH WITH FLYING COLORS.

'KLM announces the departure of KL880 to Amsterdam.'

A khamsin wind off the desert has pushed the temperature in Dubai up to 116°F. Although past midnight, the skin of the aircraft is too hot to touch.

We take off and climb smoothly to 40,000 ft. The sea of air outside is rushing past at -84°F, colder than the South Pole.

KL880's tough polyurethane paint must cope simultaneously with

these extremes.

Dawn breaks over a fleecy layer

of cloud 30,000 feet below. But the stratospheric sky is clear.

As the sun lifts behind us, vast amounts of ultra-violet radiation bathe the aircraft.

Under this onslaught, human skin would perish.

KL880's painted skin neither discolors nor fades, neither cracks, flakes nor peels.

This is because one of its layers is 'Aerodur Clearcoat' that contains powerful ultra-violet filters.

Over the Alps, we fly into a

thunderstorm. Twice, although the passengers don't realize it, light-

ning flashes near the aircraft. KL880's paintwork is not even

blistered.

Nor does the rain loosen the paint.

But why should water succeed where snow, sleet, hail, de-icing fluid, hydraulic fluid and aviation fuel have failed?

KL880's paint was developed by Akzo, one of the world's biggest chemical companies: 70,000 people active worldwide in chemicals, fibers, health care (where our work includes cancer research and AIDS diagnostics) and, of course, coatings.

It's quite likely that your car is equally well protected by an Akzo finish.

And if you're one of those traditionalists who like fountain pens, we may well have made the dyes for your ink.

(We're also, as it happens, the world's leading producer of kidney dialysis devices, industrial yarns and salt.)

At 8:25 am, KL880 lands at Amsterdam, as fresh and glossy as when she left Dubai.

)]]; # arning

No wonder today so many of the world's passenger aircraft fly our colors.

Dollar Mixed After Technical Rally

Compiled by Our Staff From Dispatches
NEW YORK — The dollar closed mixed after active trading inesday, inching up against most currences but falling against the yen and the Canadian dollar.

Dealers attributed the corrency's spotty gains to technical factors rather than fundamental strength, noting that operators were reluctant to take positions ahead of the U.S. employment data for September, to be announced Friday.

Traders said the market was inclined to sell dollars, but a drop in the British pound prevented the U.S. currency from falling across the board. The British government's decision to order the Kuwait Investment Office to sharply reduce its holding in British Petro-liam Co. sparked speculation that knwait might unload sterling.

The dollar rose to 1.8648 Deutsche marks at the close from 1.8618 DM on Monday, while it advanced against the pound, which slipped to sgainst the pount, 7018. The dollar \$1.6948 from \$1.7018. The dollar also firmed to 6.3495 French francs from Monday's 6.3385.

in order to secure larger oil reve-

share of the world's market.

The dollar fell below the support level of 1.8580 DM to touch a low of 1.8565 DM, but soon recovered and drifted back up. It closed at 1.8605 DM, down slightly from Monday's 1.8613.

waiting for direction from the re-lease of the U.S. employment fig-

The dollar slipped to 133.18 yen from 133.65 Monday, and fell to 6.3375 French francs from 6.3380. But the U.S. currency advanced to 1.5790 Swiss francs from 1.5787 francs. It also firmed against the British pound, which eased to \$1.6963 from \$1.6985 on Monday.

In the absence of news to move the market, dealers have turned to technical charts for guidance. Most said they believe the dollar could test lower levels again Wednesday. "People are dealing a lot on

charts," said a European dealer.

There are still quite a few sell orders. I think 1.8550 DM will be tested again." The pound, too, could face a test at \$1.70. (AP, Reuters)

Finnish Bank Suspended

INTERNATIONAL HERALD TRIBUNE, WEDNESDAY, OCTOBER 5, 1988

As a Broker

HELSINKI - A stareowned bank, Postipankki Oy, has been suspended from acting as a broker on the Helsinki Stock Exchange for two months for violations of the bourse's rules, an exchange spokesman said Tuesday.

The exchange's board of directors also gave Postipankki 30 days to lodge an appeal with the supervisory board, which is a more senior body.

The spokesman said Posti-

pankki broke rules by failing to tell the exchange it had acquired more than 10 percent of the wholesale company Lei-purien Tukku Oy in August.

On Aug. 16, Postipankki owned 32.4 percent of Lespurien Tukku. Ben the bank's holding was reduced to 9.2 percent the following day. On Sept. 13 the bank's stake stood at 4.1 percent, the bank said

"Unless oil production in all

these countries comes down, we

Roh Predicts Ascent for South Korea With Fewer Exports

SEOUL - President Roh Tac Woo predict-

ed Tuesday that South Korea would enter the ranks of advanced industrialized nations by

He also announced that the country would reduce its dependence upon exports for growth. In a major budget speech, Mr. Rob told the National Assembly that before his term ends in 1993, South Korea would be transformed into a creditor nation. Only two years ago it had the fourth-largest foreign debt in the world.

The South Korean currency, the won, "will then become an international currency, enabling our citizens to travel around the world

Although he was not specific about target dates, Mr. Roh said that the deregulation of banking, liberalization of foreign-exchange

with only Korean money in their pockets," he

United States - will be carried out "on a

He also said "a better balance between exports - on which we have been depending heavily for growth - and domestic sales would be achieved. His speech marked the first time a South Korean leader has deemphasized the need for exports, 40 percent of which have gone to the United States in recent years.

The president said an increase in per-capita income from slightly above \$3,000 last year to \$6,000 in 1992 would ensure steady growth of the domestic market. Leading-edge industries will continue to expand, and the government will invest more in infrastructure, assuring an annual economic growth of around

controls and opening of South Korea's capital amarkets — all of which are sought by the is not mimicking Japan, which has promised to seek its growth entirely through domestic demand, Mr. Roh predicted that South Korean exports would climb to \$90 billion in 1992, "making Korea one of the 10 largest trading nations in the world."

Last year, the nation had \$47.3 billion in exports. The U.S. Embassy in Seoul predicted that total South Korean exports will rise to \$57.5 billion this year.

Sounding a word of caution in a reference to the increasing demands of organized labor, Mr. Roh said South Korea's economic success threatens to create "public expectations and demands (that) are likely to soar to unrealistic heights." He warned that "no one can come up with a magic formula to satisfy the aspirations of all citizens in one fell swoop.

TRADE: Asian Nations Play Greater Role in Balancing Trade Inequities

alization scheme in February.

lished an analysis of triangul

break this pattern."

(Continued from page 1)

and the United States simply cannot be solved by our two nations alone," said Hirobiko Okumpra. chief economist at Normura Research Institute, "But if we bring in the NIC's as a third party, a vicious circle becomes virtuous

Reflecting both the high dollar of the early 1980s and the U.S. currency's devaluation against the yen since 1985, the U.S. deficit with the little dragons has mounted faster than that with any other region for most of this decade. At its peak last year, the deficit reached \$37.1 will consider there is no agreement billion — Taiwan accounted for to which we are bound," said a almost half of that.

One consequence of this trend familiar with official policy. has been the increased prominence of trade between the United States and the four Asian nations since 1980, when U.S. trade across the Pacific exceeded its trade with Eu-

rope for the first time. Trade among the four dragons, Japan and the United States in 1987 stood at more than \$600 billion, or 11.5 percent of total world trade -- nearly double its proportion of world trade in 1980.

In this context, the sensitivity of ty to penetrate the Japanese mar-

and exchange rates - their "clasticity" in these areas - has taken ment of the four dragons to a stage on greater significance, economists in which demand for capital goods

Assuming similar rates of growth in any given period, for instance, the NICs are likely to show import growth at twice the rate of Japan, according to a new study by the Nomura Research Institute. The study also showed that Japan's imports from the four dragons would grow four times faster than imports from the United States under the

Similarly, the Nomura study showed that two-way trade between the United States and Japan was less sensitive to exchange-rate adjustments than trade between the United States and the four oth-

same conditions.

er nations. Why have these distinctions emerged? For one thing, Japan's import barriers — including nontariff factors such as its distribution system - contrast sharply with liberalization programs launched over the past year in Taiwan and South Korea. Japanese investment in the four other coun-

tries is also improving their capaci-Indeed, some trade analysts question whether the four nations, some of which still face problems to 2 percent, the study projects.

Another factor is the develop- of income distribution and underdeveloped markets, can sustain the position in the trade triangle that and high-technology items is likely they have staked out in recent to remain strong under almost any circumstances. Consumer products months. "Economic transitions of this

sort are important in the long term," said Marc Faber, managing director of Drexel Burnham Lambert (HK) Ltd. "But these are inof the population still has no purchasing power. What global impact can they have?"

No one is yet able to answer that question with certainty. But high growth in Japan, slow growth in the United States and further currency appreciation among the NIC's would make the phenomenon permanent in coming years, econo-

mists say. If the four dragons' currencies appreciate 10 percent the Nomura study says, their combined surplus with the United States would be reduced by a further \$1.5 billion in the year it took place, and more than \$9 billion the following year. The same result could be achieved through a reduction of U.S. growth

from its current level of 4 percent

COLLUSION ACROSS THE JORDAN: King left Palestine, Jordan would move its army into the Arab Abdullah, the Zionist Movement, and the Partition of Palestine

Reviewed by Kathleen Christison

accurate version of the story.

Israeli scholar and Oxford University don Avi Shlaim's researched account of 30 years of contacts between the Zionist leadership and Jordan's King Abdullah, contacts aimed at forestalling creation of an independent Palestinian state and assisting Abdullah in taking control of the Arabs.

Forgotten throughout these Zionist-Jordanian deal-times were a mortoughly to conclude a formal peace with Abdullah and other Arabs.

Forgotten throughout these Zionist-Jordanian deal-times were a factorist with the contact of the Arabs.

ty and cynical double-dealing.

Abdullah wanted from the beginning of his monarchy in 1921 to take over all of Palestine, giving the Jews local autonomy under his rule. This was unacceptable to the Zionists, but they maintained contact with him throughout the 1930s and '40s because he was useful: He was a As is abundantly clear, they did not solve the Palestin-rangestic, able to receive when the Zionist mouse is an around the palestin and the contact with him throughout either security or land.

As is abundantly clear, they did not solve the Palestin-rangestic, able to receive the Zionist mouse.

This made for a nice partnership, and in 1947, 10 days cannot work in the long run. before the United Nations voted to partition Palestine into an Arab and a Jewish state, Abdullah and the Zionists reached an understanding that, when the British analyst with the Central Intelligence Agency.

The partnership had its ups and downs. Abdullah pledged not to invade the Jewish part of Palestine, but the Zionists never agreed to similar constraints for them-By Avi Shlaim. 676 pages. \$40. Columbia University Selves, and the two armies clashed in Jerusalem when the Israelis attempted to take the city, which was to have Press, 562 West 113th Street, New York, N. Y.

Shlaim demonstrates that the impetus behind the other Arab states' military move into Palestine was as much anti-Jordanian as anti-Israeli and that much of the IT HAS become a commonplace, when discussing fighting in which Israel engaged was self-initiated, despited to take more territory in the Arab sector. Indeed, plucky little infant state fighting off marauding armies from five Arab nations, ready but for Palestinian intransigence to live alongside a Palestinian state in accordance with the UN Partition Resolution, anxious to make peace but unable to find a partner among any of its peace but unable to find a partner among any of its addullah. Israel is shown in Shlaim's book to have been neighbors. None of this has ever been precisely true, but only recently have researchers begun to air a more accurate version of the story.

Arab armies facing it.
Shlaim admires Abdullah's willingness to deal with the Israelis, and he believes that Israel's early leaders,

As is abundantly clear, they did not solve the Palestin-ian problem by trying to ignore it or smother it. Shlaim's pragmatist, able to recognize when the Zionist movement had become too strong to be denied a part of book shows that, in the complex world of Middle East-Palestine, he was not anti-Jewish and, above all, he hated of insularity and Jordan's attempts to go it alone simply

player who hits on a pretty Aending and thereby lands a doubled game contract often rushes off to tell the story, expecting to bask in warm appreciation. Occasionally he is disappointed, as was Bill Cole of Bethesda, Maryland, on the diagramed deal. He told the story against himself in the May/June issue of the Washington Bridge League Bulletin.

West had lots of high-card points but no great reason to think he could take four tricks in defense. His final double was therefore at best aggressive. He led a trump, and Cole as South took East's jack with the ace and led the club jack. West put up the ace and led a second trump. allowing the nine to win in dummy.

The club king was cashed, a club was ruffed and the lead of the singleton spade forced West to put up the queen. The ace won, and another club ruff was established a winner in

dummy. The remaining trumps were led to produce this ending:

0 — ♣7 EAST ♦9532 SOUTH OA31084 South would have been in trouble

if West had held four diamonds, but as it was, he was able to lead the diamond jack effectively and make four hearts doubled. West had to concede two tricks at the finish to one hand or the other. And it would not have helped West to throw the diamond six. saving a spade, for South would have cashed the diamond ace in the position shown.

Cole was distinctly deflated when he told the story to a friend who had played in the event. "You were unlucky to get a trump lead," he was told. "Now all you can do is to ruff one diamond and make 11 tricks."

Crippled Dodgers Brace for Mets; A's Favored Over Red Sox, but . . .

New York Times Service LOS ANGELES - The New

York Mets streaked into town Monday after winning 29 of their last 36 games and were installed as solid favorites over the crippled Los Angeles Dodgers to win their second National League permant in three years.

They conceded, however, that the first hurdle in the playoff would be the tallest. On Tuesday night they were to face Orel Hershiser, who ended the season with a record-breaking 59 scoreless innings. Hershiser hasn't given up a run since he gave up two in the fifth ming of a game Ang. 30 against the Expos in Montreal

But the Mets said that while they respected him as a gifted profes-sional, they did not fear him. "Orel Hershiser isn't my problem," said Dwight Gooden, who was to pitch the opener for the Mets. "The Dodger hitters are the gays I've got to beat. So I can't really dwell on what Hershiser has done. He's done a great job. It's awesome six shutonts in a row. But he won't

"I don't feel any extra pressure," Hershiser said. "I feel less. If I give anti-inflammation injection, but

as a pinch-numer and glove man for the late innings. By contrast, the Mets approached the playoffs robust in form and spirit. Half a dozen players were nursing head colds, and Keith Hernandez was still treading lightly on his hamstring muscle, which was torn four months ago. But otherwise, they were sound.

fourth game in place of Belcher.

tional League this season.

Manager Dave Johnson said he would open against Hershiser with his customary left-handed lineup, fortified by two hot players: Gregg Jefferies, who hit .321 for the last month after joining the Mets from the minor leagues, would start at third base, and Mookie Wilson, who ended the season hitting .296 after a five-week splurge that began in Los Augeles in August, would start in center field.

To fit them into the linear, Howard Johnson was moved from third base to shortstop, and Kevin Elster and Lenny Dykstra were moved to the bench. But Johnson said he would find work for them and for Tim Teufel, who will start at second base against left-handed pitchers.

But how would the Mets cope with Orel Hershiser and his zeroes? "We have an explosive ball

club," Johnson said, "If Orel Her-

shiser makes a mistake, we'll hurt

Washington Past Service
WASHINGTON — If you analyze the Oakland-Boston playoff series like a chilly gambler, it's a walkover for the Athletics. Viewed that way, the American League championship series, which starts Wednesday in Boston, is a showdown between a barely good team that won only 89 games and a nearly great one that won 104. But if you look at it like a basebail

By Thomas Boswell

manager or player might — a sequence of specific pitching matchups with beavy emphasis on who's hot lately — then you can't wait for it to begin. If the Red Sox can start well at home behind Bruce Hurst (18-6) and Roger Clemens (18-12). they can pilter a permant. Overall, the A's are a little better

at everything — offense, defense, pitching and base running. The Red Sox scored a few more runs in 1988, but only because they played in cozy Fenway Park.

The real offensive edge lies with Oakland's sluggers, who make Fenway feel like a phone booth. The A's outhomered Boston, 13-1, in winning this year's season series, 9-3. Yet all that may not be a prohibi-

tive advantage. The Red Sox will probably have the better starting pitcher in each of the first three games, and pitching is Boston's

Hurst, Clemens and Mike Boddicker (a reborn 7-3 after arriving from Baltimore) are the equal of any three-man rotation in this post-season, and that's saying plenty.

Left-hander Hurst was 13-2 in Fenway; he's 11-5 against Oakland. His Game I foe will be Dave Stewart (21-12), who showed diminished fire after an 8-0 start.

Pitching Game 2 for the A's will be Storm Davis (16-7), who will face the heart of the Red Sox: Clemens, the Bob Feller of his generation but in a tired-arm semi-slump. Manager Joe Morgan hasn't done much wrong, but he left Clemens in far too long in back-to-back August starts, and the price has been dear.

Boddicker has the curveball and changeup needed to survive against Jose Canseco, Mark McGwire, Dave Parker, Dave Henderson and Carney Lansford. His oponent in Game 3 in Oakland will be Bob Welch (17-9), who on paper looks like the A's best at the moment.

If this were a 162-game series, Oakland's five-deep bullpen and its better spot starters would be important. Instead, Dennis Eckersley, the former Red Sox with 45 saves, and Lee Smith, the man who found Dick Radatz's body, will be paired off in save situations.

baif-dozen good batsm

• Eight or nine quality pitchers against five or six. • Plenty of speed and defense

against barely enough. • A balanced team that barely notices where it plays against a bad road team that hates defending the

vast outlield spaces in Oakland. • A rested juggernaut against a team that lost five of its last six and didn't clinch until the final weekend. Still. The A's are a young, confident team with no psychological baggage. But in the last dozen years

it's usually been older teams teams more embittered or more frightened — that have done best in October. Core veterans like Dwight

At a plance, Oakland's too good: Ellis Burks how much it means to • A half-dozen shuggers against a atone for The Thing in 1986.

That Oakland is the better team may not help it any more than it did the Blue Jays and Cardinals against the Royals in '85 or the Tigers and

Cards against the Twins in \$7. Red Sox teams seem to play best when they are such underdogs that the word "choke" can't be applied. These Red Sox have nothing to lose and plenty to prove.

Nobody in baseball doubts that Oakland could win this playoff in a hurry. But if the battle goes back to Boston, where the Red Sox would have the same undeserved home field advantage that aided the Twins last year, the forces of history and emotion could be center-stage. Then, Hurst, Clemens and Boddicker, who have all proved magnifi-Evans, Wade Boggs, Marty Barrett, cent under October pressure, may Rich Gedman and Jim Rice can tell have an edge over Stewart, Welch have an edge over Stewart, Welch hot kids like Mike Greenwell and and Davis, none of whom have.

Mark McGwire, a slugger who makes Fenway feel like a phone booth.

Banks Catch Met Fever

NEW YORK — As the National League playoffs approached,

Met fever spread to the financial industry.

On Monday the Manufacturers Hanover Corp. announced a New York Mets-linked Mastercard. Besides getting a credit card that sports the Met logotype, cardholders will be eligible for sweepstakes prizes that include a trip to the team's spring training camp and the use of a Shea Stadium box.

National Westminster Bank USA is also trying to capture some of the magic. It will cut its interest rates on auto, personal and home improvement loans by a quarter of a point each time the Mets score a postseason victory, up to two percentage points.

Prudential-Bache Securities Inc. may have come up with the most

umusual angle of all. Its scalor economist, Deborah Johnson, says she can forecast interest rates using Met pitching performance.

Since 1986, she said, the team's earned-run average has closely tracked the yield on 30-year Treasury bonds. In 1986, when the Mets gave away few runs, rates were low. Injuries and suspensions plagued the team last year, and yields soured in the spring of 1987. Now the

Mets have the lowest ERA of any team in the major leagues.

If they keep this up, Johnson said, interest rates could fall to 8 to 8.5 percent by year's end.

Saints Beat Cowboys on **Kick at Gun** .263 494 65 130 10 64 .296 378 61 112 8 41 .270 429 57 116 8 33

Compiled by Our Staff From Dispatches NEW ORLEANS - Morten Andersen's 49-yard field goal as time expired Monday night gave the New Orleans Saints a 20-17 National Football League victory over Dallas and exorcised a pair of gridiron demons that have haunted

the Saints for years. The last-second victory was only the Saints' second triumph over Dallas in 13 meetings and its first since a 24-14 decision here on Oct. 17, 1971. It also was only the second time in eight tries that New Orleans

has won a Monday night game. No wonder the game-winning kick and the resulting celebration — which included an on-field dance by team owner Tom Benson before a Superdome crowd of 69,134 -- left

Andersen a little addled. "Elation — pure joy," said Andessen, who jumped up, punched his fists into the sir and boogied briefly on the sideline. "I didn't believe we'd get it down there close enough I don't know how long it was, but I think it went over the crossbar. It freaked me out. I thought we were going overtime."

Andersen, a native of Denmark, is the most accurate kicker in NFL history, having made 80 percent of his field goal attempts during a seven-year career. The victory was the fourth

straight for New Orleans after a season-opening loss to San Fran-cisco. Dallas dropped to 2-3. Andersen's field goal came after Roger Ruzek of Dallas had locked

a 39-yarder with 24 seconds left, tying the game at 17-17. Ruzek had missed from the same distance with 2:22 remaining, the ball hitting the left upright and bouncing back. Mei Gray returned the ensuing kickoff 39 yards and Bobby Hebert, who completed 17 of 37

passes for 273 yards and two touchdowns, threw 26 yards to Brett Perriman to set up the winner by Andersen, whose 27-yarder in the third quarter had given the Saints a 17-14 lead.

"That was a game, wasn't it?" said Jim Mora, the winners' coach. "It was a game of big plays, and we had the last one." Hebert threw TD passes of 7

yards to Lonzell Hill in the first tests but, for the most innocent of quarter and 17 yards to Perriman in the second. The Dallas scores came on passes of 13 and 14 yards from Steve Pellner, who completed 23 of 35 passes for 271 yards, to Kelvin Martin, who had nine catches for

crossbar [on Ruzek's field goal try] and we gave them a field goal. We've

Soviets: Enduring Form of Grand Masters

SEOUL - It has taken Soviet soccer players a long time, but finally they are grand masters of pacing a

ajor tournament.
The Olympics ended with not one marathon but two. In the same way that Italy's Gelindo Bordin judged his finish to come from behind and beat two Africans, the Soviets proved their stamina in overhauling Brazil in the soccer final.

The Soviet Union deserved the gold. Brazil deserved silver. And

ROB HUGHES

the rest, with the exception of the exciting Zambians, deserved what they got — the consolation of having been there.

It was a brutal schedule: Six mes to win gold, crammed into games 10 wm goru, command 14 days, breaks body and mind. Added to that, the final and both semifinals went overtime. Yet, kicked cynically by Italians and West Germans in the semis, both the Soviet Union and Brazil had the will, wit and strength to enthrall

73,000 spectators. Soccer likes to remind Olympi ans (especially sponsors) of its stat-ure as the world's No. I crowd attraction. The total of 742,000 watching 32 matches in South Korea seems hefuly beefed up, but there was no doubting the full bouse at the finale.

The fervor was genuine, Brazilian fans, as always, massed where the action was, but a new feature has been the voluble ranks of massed Soviet supporters — red flags flying amid Brazilian green and yellow. Show quality players that kind of attention and they'd have to be cast of stone not to respond.

There is a pleasing evolution among the Soviets that releases hith-erto regimented performers. We saw it, albeit without match-to-match sistency, at the 1986 World Cup. We saw it the European championship in June, where the Soviet Union lost the final, as any team would, to the Netherlands.

A link between summer in Mu-nich and autumn in Seoul is Alexei Mikhailichenko. He is becoming the key Soviet player: always pre-sent, always involved, always hungry — an Olympian, I would say, now that professionals, either of state or commerce, flaunt their wealth in five-ringed circles.

Mikhalichenko passes the dope reasons, I wonder how. He has such strength and energy, such a marath-oner's way of shuttling among de-iense, midfield and attack. In South fense, midfield and attack. In South with a spymaster's stealth he him-Korea, he adopted two extra bur-self notched six, including a penaldens: team leader and, when goals wouldn't come from forwards, chief "We had a great chance to go into striker. Time and again he sprinted overtime," said Tom Landry, the 50 meters (55 yards) and more to be Cowboy coach. "The ball hit the there, in the opposition's danger

zone. He scored five goals. No man being an island, Mikhaihad a lot of tough breaks. We could lichenko found a mate in Igor Do- the final that Brazil had led by a more physical, not always in full the marathon.

Martha Graham: Phoenix of Dance

By Nan Robertson New York Times Service

TEW YORK - Martha Graham sits in an airy mirrored studio in Manhattan, immacu-lately made up, her skinned-back hair crowned by a wide floppy black chiffon bow that flares out over her pointed ears and somehow looks like Cleopatra's coiffure. She wears Mary Janes on her famous feet and chunks of tur-quoise around her neck. Only the hunch of her back and arthritic knobs on the hands she sheathes in gloves betray her age. She is 94.

She is gazing at a young wom-an. Terese Capucilli, as sinnous and strong as a whip, dancing the lead with Donlin Foreman in Graham's 1940 work, "Letter to the World," an homage to Emily Dickinson's poetry and soul. She is watching herself, dancing 48 years ago, dancing with the first man to join her company, her lover and later, briefly, her hus-band, Erick Hawkins. She is strenuously rehearsing her com-pany, this country's oldest dance troupe, for its 1988 New York season's opening.

By her side, always, is Ronald Protas, dark and worried, whispering in her ear, palming his tape recorder. He is an associate artistic director (with Linda Hodes) of the Martha Graham Dance Company, formed almost six decades ago, in 1930. Never a dancer, he studied law and practiced photography until he became her shadow, and, Graham believes, her savior, in the early 1970s. She had stopped dancing in 1969 at the age of 75. It was almost the end of her. She abandoned herself to illness, solitude and despair. She neglected her company, which did not perform in public for years.

Then Protes, who is now 41, came along to befriend and to encourage her. With a supreme effort, Graham rekindled the flame that has illuminated her art since her first independent per-formances in 1926. She has choreographed 26 new dances in the last 15 years, and directs her

company and school. Protas resents any talk that Graham is an icon to be trundled out on stage for the ovation; he and others who have watched her create, teach and rehearse see this period as an astonishingly fruitful

"It's important that people feel, that they feel alive," Martha Graham says about dance.

comeback. She has not only brought out fresh works; she be-gan to re-stage previously "lost" Graham pieces. "Placed end to end as they have never been be-fore," wrote Anna Kisselgoff, a New York Times's dance critic, in 1987, "these works make up a repertory that no other moderndance company can boast."

Graham has choreographed 178 ballets while creating an original dance language. Both her re-vivals and recent works have evoked words such as "dazzling and "electrifying" from the critics. The season's run at City Center, preceding a tour across the United States and following another around Europe, will feature a world premiere of her newest dance, "Night Chant," set to tra-ditional American Indian flute

There will be revivals of three major Graham works — the erotic "Phaedra" along with the Dick-inson "Letter to the World" and "El Penitente." Also included is "Fragments," a series of excerpts from Graham classics. Some of them have not been seen for more

than 50 years. At the opening gala, Mikhail Baryshnikov will dance the title role in Graham's 1940 piece, "El Penitente"; the actress Kathleen

Turner will make her debut in a dance work as "She Who Speaks" in the Dickinson piece, and Maya Plisetskaya will perform Michel Folime's "Dying Swan," a role the great Russian ballerina has not danced in 18 years in New York. Graham agreed to an interview,

followed by an even rarer opportunity - to watch her rehea her dancers. There is only one subject she balks at discussing setting her jaw and turning her face away, murmuning "I don't know . . I don't remember things," while Protas gently pleads in her ear. It is a wonderful story, it will inspire people, he tells her. The apparently forbidden topic is that dark passage in the late 60s and early 70s when she stopped dancing and wanted to die. Then Graham reveals in

"Anthony Tudor asked me a long time ago how I wanted to be embered - as a dancer or as a choreographer," she says. "I replied, 'As a dancer.' He said" — Graham pauses — "I pity you."

friend, a painter, who could not paint after her husband died. "I lie. "I'm not interested in people cannot paint," she told Graham.
"There's nothing to paint." Day
after day, the woman stared at a

of it. It was the immediacy that I

"And then one day," Graham says, "she made on the canvas a dot. Because she could make that dot on the space, she knew that she would paint again." The corollary to the choreographer's own angrish in her 70s is unspoken.

She was asked about her decision late in life to re-stage and represent that necklace of dances that forms a link to her earliest years. She had previously said, "I don't believe in nostalgia."

If she doesn't, why the revivals? "You're quite right — I don't go in for nostalgia," she says. "But people were quite curious about older things they had not seen. And I... I wanted to see what is now, coming out of what was then. I'm not interested in the past. I'm interested in the future going on - the excitement of what now is. If it's good, it will stay for quite a while. On the other hand, there comes a time when a work has to be retired."

Graham believes that dance was the first communication for The story reminds her of a close all humans, that the body does not lie, that movement does not wanted - not intellectual under- presence of the ancestor."

standing. It's important that peo-ple feel, that they feel alive." She recalled a night in Florence

20 or more years ago. "I was performing 'Dark Meadow,' standing on a Noguchi rock" — the great sculptor isamu Noguchi has designed many sets for her -"and the andience got out of hand, booing and catcalling. I had my arm this way" - she demonstrates, face forward, holding her right arm straight across her chest "and suddenly I turned my face away and instinctively flung up my arm."

She sharply averts her face and swings her arm abruptly, arresting it bent upward as if signaling a right-hand turn. They quieted down instantly and I said to myself, You can be had... take you. What my body told them was, 'Wait a minute! Behave yourself! You offend me.'

She believes in myth and leg-end, in gods and goddesses on the stage, in ecstatic, primordial the-ater. Nothing has influenced her more than various Indian cultures in the American West. When Graham was young, her father, a well-to-do psychiatrist, moved his wife and three daughters from Pennsylvania to Santa Barbara,

"Going to the Southwest made a great change in my life," she says. "I have never taken literally from Indian cultures, but the Indians taught me the absolute sacredness of the land, the use of the body as reiteration of the sound of the earth."

Her 1984 staging of "The Rite of Spring" was inspired by Amer-ican Indian ceremonies. She kept Igor Stravinsky's idea of an orgiastic fertility ritual, but threw out the visual references to pagan

The choreography for "Night Chant" also has Indian roots. "Night Chant's" setting includes tall, curving exclamation points with steps on them, designed by Noguchi years ago for "Embau-tled Garden."

Graham asked the sculptor for permission to use them again. "He's very tight, very hard, but he agreed," she says. "He told me, That's what art is -- using accidents." She added as if to herself: "But of course - it's the

Galbraith and Greene Honored by Moscow U.

Moscow State University, the alma mater of the Soviet Union's leader, Mikhail S. Gorbacher, has awarded bonorary doctorates to the American economist John Kest in neth Galbreith and to the British writer Graham Greene. Galbraith was honored for "his services in the development of sciences and the humanities," the Tass agency said. Greene's doctorate is a sign of "his outstanding services in the field of literature and in the strengthening of friendly contacts with the Soviet Union," Tass said.

A TOP! HACK

Alipe Reil

In World War II the Library of Congress awarded a poetry prize to Frea Pound, whose Pascist sympathies were well known, and Congress reacted by barring the library. from giving out any prizes. But is honor of the United States's normal poet laurcate, Howard Nemerov, & brary officials said that Congress had removed the injunction and that literary prizes were in the works.

Sam Giancana, the organized crime boss, was frying sausages and peppers when he was shot to deads in 1975. Now his daughter, Antol-nette Giancana, 53, who described. the bedroom activities of mobste in her 1984 book "Mafia Princes says she plans to publish the "Mag-fia Cookbook." It will feature the recipes of 35 of Chicago's gang-

A statue of Mohandes K. Ganda the proponent of nonviolence who led India to independence, has been dedicated in San Franciso. The Gandhi Memorial Internation al Foundation donated the schipmre and gave humanitanan awards to: Joan Bacz, the singer, Shirley Temple Black, the actress-dipinmat: Warner Erhard of the Hunger Project; David Packard, an indus-trialist; Richard Swig, the innel-man; Danyahimi R. Patel, a benefactor of the Indian community in San Francisco, and Manibbal Dessi of Poona, India, a follower of Gandhi since 1945.

Lawrence M. Crutcher, 46, the president of Book-of-the-Mo Club and a vice president of its corporate parent, Time Inc., in New York, will became changen of the club at the end of the year. He will succeed Al Silvenson, 62. New York, will became chairs
